ROGERS CUTS OUT QUITE A JOB FOR PRESIDENT HOOVER

(Special To The News)
NEW YORK, March 6.—Mr. Coolidge came into office accidentally and we didn't expect anything. We just thought if this little inoffensive fellow can keep some of the states from seceding we will all be thankful.

But Hoover, here is just a few things we look to be settled not later than Saturday.

Farm Relief—Now we have never had farm relief in all our history, but we look to him for it.

Prohibition Enforcement—Never had it since it was established, but we expect it from him.

Prosperity—Millions never had it under Coolidge, never had it under anybody, but expect it under Hoover.

And women think he will wash their dishes and look after their babies.

Nothing short of heaven will we accept under Hoover. Good luck to you, Herb!

Yours, WILL.

PA NEW OBSERVES

New Castle legionnaires have just entered into something they thoroughly intend to finish—a membership challenge with the post of Beaver Falls. Ex-servicemen of the city, not members of the American Legion should cooperate as best they can with their Legion buddies, in joining the local post. True it is Beaver Falls already has the edge on New Castle, but members of the local post are not going to let that count. On with the drive! Good luck legionnaires!

Once again Dr. Theodore Appel, state secretary of health, warns against colds. What the secretary said in the interview presented in last night's News should be read by all. It's the physical contact that spreads colds when a person in a highly contagious condition, he said. Care should be exercised these murky days.

In the first issue of the "Castle News" newly established organ of the New Castle Chamber of Commerce it is estimated that some 7,000 people will pay this city a convention visit during the coming spring, summer and fall. Seven large conventions will draw this throng from all parts of Pennsylvania.

Something else which is interesting. People have old scrap books of Civil War days and other days. Just newspaper and magazine clippings of days gone by which have been saved down through the years.

And yet another. Family has an old hand-drawn clock which has been handed down for five or six generations. In that family, that many generations means a long time. Recently the old clock went flake, was taken to a clock fixer and now runs like a new fiv.

The horse may be scarce but the play is a thing of the past. Families who have had ponies for years—they are an institution, you know—have sold them or had to have them shot. Not safe for a kiddie to ride on the roads now at all. This was the statement of several former pony owners and Pa News believes that it would be about as safe with a pony as with a car.

Have you done your bit for the air mail stop? Remember, it will be service here four times a day by plane. (Continued On Page Two)

David Clark, commander of the G. A. R. and now a resident in the little village of Mt. Jackson was engaged in the lumber business at the age of 21. In Allegheny county. In those days, Pittsburgh was not the smoky city of today and timber was being cut throughout the county.

Commander Clark had just returned from the Civil War where he had been a drummer boy and but a lad in the conflict.

Though forced to use a crutch and cane now, the commander is in good health.

GUNMEN SHOOT TWO CLEVELAND POLICEMEN

(BULLETIN)
CLEVELAND, O., March 6.—Patrolman Carl Sherman was instantly killed and Sgt. Martin Hoffman was probably fatally injured by two gunmen on the South Side here today.

The two policemen were cruising in a squad car and drove alongside a large sedan occupied by the two men. With no warning the gunmen opened fire and sped away.

The entire city was being combed by flying squadrons, in search of the slayers.

WHITING, Ind., March 6.—The "Battle of the Titans"—John D. Rockefeller, Jr. versus Col. Robert W. Stewart—with control of the wealthy Standard Oil Company of Indiana the stake, today poised in that deadly calm that usually precedes a sanguinary battle "on the morrow."

For tomorrow, in the little ivy-covered office of the storm-tossed Indiana Corporation here, these giants of finance and industry will stage, thru the medium of stockholders' proxies, the long-heralded "showdown" for control of the company's affairs.

The occasion, in less militant words, is the annual meeting of stockholders. It is scheduled to get under way at noon.

Neither side would venture a prediction today on the probable result of young Mr. Rockefeller's struggle to oust Col. Stewart from the chairmanship of the board of directors. From sources considered reliable, however, it was definitely reported that the Rockefellers "are in."

Believe Stewart Ousted.

FIVE ARE BLINDED
BY POISONED RUM

(International News Service)
PEORIA, Ill., March 6.—The death toll in Peoria and Knox counties due to poisoned alcohol rose to 21 today.

The latest death reported was that of William J. Hall, 60, of Galesburg, reported earlier, were those of D. T. Trout, 28; Rex Colville, a railroad engineer, and Charles Harkrader, a bar-tender.

Seventeen deaths have been reported in Peoria county.

There are three cases of blindness being investigated in Peoria, and two in Galesburg.

Five are arrested
Five alleged bootleggers were arrested, two of them women. They are C. O. Guffin and his wife, Nita; Morris Mansfield and his wife, Jessie, and John Cox, 45, of Vermont, Ill.

The Guffins, according to the authorities, obtained their liquor from the Mansfields and the Mansfields were said to have declared that they obtained their supply from Chicago "runners."

Despite continuous grilling, Mansfield was said to have refused to name specifically the source from which he obtained his supplies. One report, being investigated today, was that he has a brother engaged in the "alky cooking" business in Chicago.

Professor George Ashman of the chemistry department of Bradley Polytechnic Institute testifying at the coroner's inquest into the death of Clarence Hoppe, one of the Peoria victims, stated that Hoppe died as a result of drinking liquor containing from 10 to 15 per cent of wood alcohol.

WASHINGTON, March 6.—Herbert Hoover apparently has taken the first step in the formation of one important part of his foreign policy.

Broadly speaking, it is that constitutional government in Latin-America is to be encouraged and supported, actively if need be, and that revolution and military coups are to be discouraged and denied the material aids from this country without which few of them can be successful.

Orders Embargo Maintained
This was the interpretation placed today upon the prompt action of the new President in ordering the rigid maintenance of the embargo on arms and munitions to Mexico, and at the same time permitting shipments to go forward to the Mexican federal government.

For obvious reasons, no announcement has been made of the extent or character of the military supplies that have been rushed to the Mexican border and made available to the federalists, but the understanding here today was that they have been considerable and varied—small arms, ammunition and airplanes.

Revolt Is Serious
Advices reaching Washington, both private and official, emphasize the seriousness of the present revolution in Mexico. The fact that the rebels have been able to gain partial or complete control of a third of the country is in itself an indication of the spread of the revolt.

The American government has a large stake in the present situation below the Rio Grande. Relations have been better between Mexico City and Washington in the last two years than they have been in many years.

Two Cabinet Members Sworn In To Office Today, Completing New Official List

(International News Service)
WASHINGTON, March 6.—President Hoover's new cabinet was completed and put into a position to officially function today with the swearing in of two additional members.

James W. Good took the oath of office at 9:30 a. m. and an hour later ex-Gov. Arthur M. Hyde was sworn in as Secretary of Agriculture. Six others took their oaths yesterday. Only one member of the new cabinet is now missing, Col. Henry L. Stimson, of New York, who is enroute from Manila to become secretary of state.

The first meeting of the cabinet will be on Friday.

LOS ANGELES, Cal., March 6.—An asserted plot to dynamite the Los Angeles Aqueduct in Owens Valley was frustrated today with the arrest of a woman and two men and the seizure of a cache of explosives at Newhall, 30 miles north of here, according to a report to the sheriff's office.

James Robinson, 70, of Independence, was arrested when officers reported they found three sticks of dynamite and a supply of caps and fuses in his automobile.

Dr. and Mrs. E. C. Adams, also of Independence, were held for questioning.

Ellport Borough Candidates File Nomination Papers

Lively Election Is Forecast For
The Youngest Borough In
Lawrence County

Spirited election for the newly created Ellport borough is indicated by the filing of nomination papers on two party tickets at the county commissioners' office. The parties are designated as the "Peoples" and "Independent."

The election will be held on April 2nd. Those filing nomination papers on the Independent ticket are as follows:

Council, Robert D. Gantley, James A. Liebenow, John Partridge, Lee Wallis, Steve Barkay, Joseph Raboskey and Harry Kiddon.

For burgess, Thomas A. Gantley, high constable, Russell Main; auditors, Charles Gallaher, Russell Gillchrist and Charles E. McElwain; assessor, Joseph Emiko; tax collector, Rosa McElwain.

Peoples party candidates are, council, P. E. Wehman; C. R. McElwain, Michael Miller, Michael Dudas, Jr., Clarence E. Hollerman and Charles Frazier.

For burgess, Andor Harsanyi, high constable, William E. Knatley.

Ellport borough, which lies between Ellwood City and Westmoreland, has a total population of about 1000 people. It was a part of Wayne township until recently when residents petitioned that it be made a borough, which was done after a hearing in court.

The bills provide that automobile operators carry sufficient insurance to cover all liabilities.

Dr. and Mrs. H. W. Burkley and sons, Howard and Lloyd of Highland avenue, have returned from Washington, D. C., where they attended the inaugural exercises.

MEXICAN FEDERAL AND REBEL TROOPS ARE NEARING CLASH

Rebels Have Captured Monterey, Third Largest City in Mexico—Report Concerted Drive Is Planned on Mexico City—President Portes Gil Secures War Materials From United States—Confident Revolt Will be Quelled.

(International News Service)
With heavy forces of Mexican federal and rebel troops moving toward each other at numerous points, the prospect of violent fighting within the next 24 hours developed today.

Federal troops are being prepared for counter-attacks against the rebels under Gen. Escobar, who captured Monterey, capital of Nuevo Leon, and third largest city in Mexico. There were casualties in the fighting there, but the extent is not known.

It is reported that the rebel chiefs are planning a concerted drive toward Mexico City from the north and west. Owing to the heavy forces of federals south of the capital it is unlikely that the insurgents in that region will prove much of a menace to the city.

Chihuahua City, one of the most important commercial cities in northern Mexico, and the capital of the state of Chihuahua, is believed to be in rebel hands.

Rebel chiefs in Vera Cruz claim that all the Mexican warships in the Gulf of Mexico have joined the insurrection and that they will co-operate with the land forces.

President Portes Gil is obtaining large supplies of war materials from the United States. Additional troops are being recruited.

Railway communication between El Paso, Tex., and Mexico City has been cut. Telegraphic and telephone communication is interrupted.

Federal Troops Nearing Vera Cruz.
Federal troops are approaching Vera Cruz, capital of the state of Vera Cruz, which had been seized by the insurgents.

Three thousand federals under Gen. Miguel Acosta, a cavalry commander, have reached Esperanza, halfway between Mexico City and Vera Cruz.

President Portes Gil of Mexico has assured Dwight W. Morrow, the United States ambassador, that he is confident the revolt will be quelled.

Lindbergh Still There
Col. Charles A. Lindbergh, the famous American aviator, who was marooned in Mexico City by an accident to his plane, is still in Mexico City. He and his fiancée, Miss Anne Morrow, daughter of the American ambassador, spend much time together.

Former President Calles, who was especially appointed Mexican secretary of war, issued an official statement indicating his belief that Vera Cruz will soon be taken by the federals. Calles said that propaganda leaflets were being dropped from airplanes offering amnesty to the rebels who lay down their arms.

Defeat Of Equalization Fee Means Terrific Loss To Federal Treasury

WASHINGTON, March 6.—The federal treasury will be called upon to back the "Hoover farm program" with a loan fund of \$500,000,000 or more—the highest amount proposed in the long history of the farm relief fight—Rep. Gilbert N. Haugen (R) of Iowa, chairman of the House Agriculture committee, predicted today.

The need for increasing the authorization, Haugen said, springs from the defeat of the equalization fee plan under which the farmers themselves would be a part of the inevitable loss of stabilizing prices.

Legislators To Speed Up Work; Adjourn Today

Both Branches of State Legislature To Hurry Through Mound Of Bills Today

INAUGURAL CUTS SESSIONS SHORT

By C. B. YORKE.
HARRISBURG, March 6.—After a series of hearings and committee meetings late yesterday and last night, both the house and senate today were prepared to rush through their calendars in two sessions today and then adjourn for the week.

The house has approximately 35 bills on its third reading calendar while the senate has more than a score.

The hearing on the Talbot gasoline tax bill was held last night in the house chamber. The measure provides means for collecting the tax from the distributors instead of from the retailers as under the present system. It is probable that the bill will be reported favorably from committee today.

Governor Non-Committal.
Although the governor has taken no definite stand against this system of gasoline tax collection he has on several occasions pointed out the difficulties which would confront any attempt to collect the tax from the distributor, adding that collection from the distributor would be difficult under present conditions.

The house cleared up a large third reading calendar in the late session yesterday afternoon. Many of the measures being reported bills abolishing obsolete statutes. The senate received the favorable report of the city railroads committee on the Woodward bill upon which a hearing was held before the late afternoon session.

Woodward Measure Up.
After being heard about in committee files and public hearings since the beginning of the session, the Woodward measure today is before the senate for final action. The bill will permit Philadelphia to buy any number of cars from the P. R. T. under the terms of the bill.

Early forecasts were that the bill would pass with little opposition and be sent to the Philadelphia delegation. However, the Philadelphia delegation has been divided a tendency to support the bill has become more evident as public hearings have progressed.

Once the Woodward bill is out of the way the senate will have little to block speedy action on its calendar and permit adjournment for the week. More than half of the calendar is reported.

Bills reported from committee and carried today on the second reading calendar include that sponsored by Senator Max Aron, Philadelphia, which would exempt the "talkies" from the supervision of the state board of censors.

and a big jump for the city. If you can send one letter a day write to the Chamber of Commerce and say so.

While there are big projects that can come under the observation and merit attention of civic bodies, Pa. New is inclined to believe that a campaign for cleaner streets in New Castle this summer is one that would be possible of accomplishment and would also mean something to this city. All citizens of New Castle can help in a campaign of this kind. If every citizen aids heartily in the idea of keeping the streets clean and with the street department doing its part, there should be an improvement in the appearance of the streets of this city this summer. Let's make clean streets a hobby for this city. Pa. New is going to keep his eye on this situation this summer and watch for developments.

And along with the idea of giving attention to cleaner streets there is another apparently minor project that could be developed. This is along the line of recreation and is the establishment of more public tennis courts about the city. There are numerous plots that are already the property of the city that it occurs to Pa. New could be fitted up without great expense for this purpose. A good start in this direction was made last summer and the idea should be extended this season.

While there was little snow to be seen last night in the downtown district the outskirts of the city looked like mid-winter. The snow was several inches deep and was clinging to everything it touched.

An amusing incident is related by spectators which occurred on the Long avenue hill yesterday. The hill was rather icy in spots. Two cars were going up. One reached an icy spot and was unable to make progress. The second coming from behind passed this car and hit the same icy spot. In a few moments both cars were making a fearful effort, side by side to get up the hill with both skidding backwards despite the effort. Neither car

was able to make the grade and the effort proved an interesting one to the spectators.

Traffic on the streets was again treacherous last night. The icy condition made a large number of near accidents and minor mishaps. Like-wise there were a considerable number of accidents caused by the heavy snow of yesterday. One representative of an auto liability company said that four accidents had been reported during the day to one of his companies here.

Pa. New today was reminded by Jack James, the dog fancier, of days gone by. In fact something that he says occurred 23 years ago today. Jack says that Bob Fitzsimmons, the Rudy Bob of fist fame, who was a heavyweight champion and he ran a race from uptown to the saloon of the Hughes, Long avenue, with a quart of whiskey as the prize. Fitzsimmons is dead, having died some years ago.

Some of the boys around town are trying to emulate the Chicago man who stood in front of a cigar store making bets that new cigar lighters wouldn't light. The report was being tested out here today. So far it isn't known whether any of the boys won or lost. Most when who have cigar lighters keep the flint screwed tight so the turn will bring a flash and ignition of the wick.

If the teacher discovers a certain 7 year old boy today doesn't know his reading lesson, she should not be too harsh on the boy, but rather blame it on a 12 weeks old Boston brindle pup which continually chewed at his foot while he tried to study the book and pat the dog's head simultaneously.

Should a person wish to hear a graphic story of a wild hunt in the wild thickets of the Transylvania mountains he should draw Adolph Lang into conversation. While in Transylvania recently the local meat shop proprietor hunted considerably and in one of his gun excursions bagged a fox, the fur of which is now in the U. S.

Traffic policemen in the downtown district of the city today did not have much chalking of automobiles as Washington street, generally crowded with parked cars had a number of vacant places along the curb. The slippery condition of the thoroughfares forced many automobilists to keep their cars in the garages.

Today was a quiet day in City hall circles. The sanitary police were out making inspections. No building permits for houses were granted. Councilmen were on the street looking after various duties. The writing of tax duplicates has been completed. Solicitor White was busy at the court house, and the mayor said "nothing new in my department".

HALF BILLION IS SUM REQUIRED FOR BIG FARM PROGRAM

(Continued From Page One)

vide for a treasury authorization of \$500,000,000 or more in the special session if there is no equalization fee and the losses are to come out of the treasury, said Haugen.

The situation, of course, depends upon the plan adopted. Last year we believed that \$400,000,000 would be sufficient with the equalization fee. If prices are to be stabilized some losses are inevitable and the federal treasury will have to bear some of it. It is intended to stabilize the price around an established figure, it is certain that some of a commodity will be sold above and some below the figure agreed upon, and the losses will have to be met."

Madden Skeptical
The first important farm relief bill, called the ration plan, provided for a revolving fund of \$200,000,000, with a somewhat indefinite plan of credit totaling a billion dollars. In the first session of the 70th congress, \$250,000,000 was proposed and last year \$400,000,000.

Although apparently he is ready to go along with the Hoover plan, the veteran chairman of the house agriculture committee is frankly skeptical of it.

The plan, similar to that embraced in a bill introduced last winter by Senator McNary (R) of Oregon, provides for a farm board and the loaning of money to stabilization corporations. Sen. McNary proposed a revolving fund of \$600,000,000, and provided that loans would be made to stabilization corporations to be formed by producers to buy, store and sell farm products in an orderly fashion to avoid seasonal rises and declines in prices. Loans would be made to cooperative marketing associations for the same general purpose and in the same funds to be set up. Money would be paid from the insurance funds when prices fell below a fixed amount guaranteed by the stabilization corporations to the producers.

While the house agriculture committee is not scheduled to begin hearings on a special session farm bill until March 22, active work on the measure will be started by various interests this week.

gleman, a former prohibition agent under Pennington, Edward George Cracro, August Bogdan, Rose Bogdan, George Gervin, Steve Kovak alias "Blackie", Ernest Martin, Frank Nabarette, Anthony Bogdan, Tress Bogdan, Ernest Glennie and Tito Gherne.

Negleman Alleged Leader
Scales, McClelland and Negleman are said by Pennington to be the leaders of the ring. With Negleman the "ring leader." Negleman left the prohibition service a few months ago, and was reported today to be in Canada. Pennington refused to comment on the whereabouts of any of those against whom warrants have been drawn, but rumor has it that several of them are in "parts unknown" as the identity of some of the defendants "leaked" out.

Graves was the only one of the defendants under arrest. He is in jail, having been committed some time ago to await trial.

The alleged conspiracy occurred at Adenton Hill, near Mount Airy, Pennsylvania, and the investigation showed it to have had ramifications in Washington, Greene and Fayette counties as well, and across the line into two counties of West Virginia. It is said the case developed following the arrest of Graves at Adenton for alleged transportation of contraband liquor.

Picked men from Pennington's staff are said to have concentrated their efforts in the counties named and soon learned that the rum gang in addition to manufacturing their own liquor, had a sales force. The sales are alleged to have been principally in Pittsburgh and the larger West Virginia cities. The ring began operations about six months ago, it is stated, and in that time many whiskey and moonshine stills are alleged to have been installed on both sides of the West Virginia-Pennsylvania border.

Sheriff McClelland is alleged to have received money from the ring for protection against raids on stills in Greene County, according to Pennington.

May Undo Work
A new government in Mexico, or even a long period of strife and unrest, means that much of the work Ambassador Morrow has done will have to be done over.

There are not enough munitions producing plants in Mexico to support a first-class revolution. To be successful the rebels must obtain the stews of war from the outside. By cutting off supplies from this country, and by co-operating with the Mexican federal authorities in the suppression of bootleg munitions from other countries a long step will be taken in throttling the revolt.

It has worked before, notably in the case of the De La Huerta revolt. Officials are hopeful that it will be similarly successful in the present instance.

STEWART-ROCKEFELLER PROXY BATTLE TO END AT MEETING THURSDAY

(Continued From Page One)

"vine" tabulation of the returns indicated today.

Winthrop W. Aldrich, representing the Rockefeller, let it be known that the fight was directed solely against Col. Stewart and that "no drastic changes in the directorate of the company" would be made.

It was also reported that in the event of a Rockefeller victory there would be no "tampering" with the \$400,000,000 stock option out by the Stewart management a few weeks ago.

No Boast of Victory
"Field Marshal Aldrich, who is a brother-in-law of the junior Rockefeller, admitted today that he had left New York with 52 per cent of the company's voting strength pledged against Stewart, yet he would not make a boast of victory. At his hotel in Chicago he said:

"We will not make any claims of victory until the checking of proxies is completed. The officials here have treated us with every consideration and we are making no direct statements which will embarrass them. I will say, however, that we are out to win this fight."

"There is no issue involved other than the 'moral fitness' of Col. Stewart. He is the only official we seek to remove. We disavow any intention of doing anything else. We have no intention of hurting the prosperity of Standard Oil of Indiana or of injuring its independence. Neither will we help any other oil company at the expense of Standard of Indiana."

"I do not know exactly how much we have lost or gained by revocation of proxies. But there has been no dispute on proxy validity."

Aldrich would neither deny or affirm the report that Edward G. Seubert, now president of the company, would succeed Col. Stewart as chairman of the board.

Are Undecided
"We have not yet decided upon our directors," he was quoted as saying. "But we do not intend to make any drastic changes."

Col. Stewart could not be reached today for his version of the battle, but there was an unmistakable veil of gloom over the Indiana company's headquarters here. Office employees and minor officials went about their work quietly, questions put to them were answered with a nod of the head; they admitted that the long fight was about over and that "it didn't look so good for the colonel."

The meeting here tomorrow will be presided over by Col. Stewart until time for the voting, when he probably will turn the gavel over to President Seubert. Balloting is done for directors only.

Directors then meet and choose their own chairman and other officers. It appeared probable today that the directors would revert to the form of management prevalent before Stewart was made chairman. The president was formerly the chief executive.

Deaths of the Day

Mr. Rawlins Funeral.
Funeral services for the late Charles Campbell Rawlins, one of the best known railroad men of New Castle and highly esteemed resident of the community, were conducted this afternoon at 2:30 from the family home on the Wilmington road.

The services were largely attended by relatives and railroad associates of Mr. Rawlins. A profusion of beautiful flowers banked the casket, expressing sympathy and esteem.

In the absence of Dr. C. J. Williamson, pastor of the Highland U. P. church, of which Mr. Rawlins had been a member for many years, Rev. Samuel J. Purvis, pastor of the Memorial Presbyterian church of Youngstown, O., officiated.

Burial was made in Oak Park cemetery and the pallbearers were Pennsylvania railroad men. They were Messrs. O'Donnell, Curran, Harris, Westlake, Robinson and Morosky.

Mr. Rawlins was 55 years of age. He was born at Bedford, Ind., March 2, 1871, a son of Joseph and Elizabeth Rawlins. When a young man he located in the west and in 1892 was united in marriage to Jennie Frances Bailey, who survives him. Following his marriage he came to New Castle where he had been associated with the Pennsylvania Railroad Co. since that time. At the time of his death he was foreman at the Pennsylvania engine house in this city.

Mr. Rawlins was a member of the Twenty Year Veterans association of the Pennsylvania Co. and the B. O. O. E. lodge of New Castle No. 59. When a young man he was a member of the Modern Woodmen of Ottawa, Kansas.

Besides his wife he leaves two daughters, Mrs. Charles F. Bowen and Mrs. Harold E. Kerr, both of Youngstown. He also leaves three sisters, Mrs. Nellie M. Price and Mrs. Sallie R. Smith of Homewood, Kansas, and Mrs. Jessie B. Combs of Beaumont, Cal., and three brothers, B. F. Rawlins of Beaumont, Cal., Homer S. Rawlins of Hobart, Okla., and Earl E. Rawlins of Billings, Mont.

Miss Eliza B. Daball.
Mrs. Joseph Daball of Cronan avenue has received word of the sudden death of her sister-in-law, Miss Eliza B. Daball, which occurred in New York City.

Mrs. Minnie F. Burns.
Mrs. Minnie Perry Burns, wife of J. J. Burns, passed away at the family home, 619 West Washington street, today at 12:15 after a brief illness since yesterday afternoon from complications.

Mrs. Burns had been a resident of New Castle for many years and was well known and highly respected. She was a member of St. Mary's church.

Besides her husband she leaves five children, Robert, Marie, Edward, Frances and Eugene and one grandchild. She also leaves her mother, Mrs. Margaret Perry of this city; two sisters, Mrs. Elizabeth Dietrich and Mrs. J. L. Maxwell, and two brothers, W. E. Perry and David L. Perry of New Castle.

Funeral arrangements have not been completed.

Introduce Bill For Pymatuning Reservoir Funds

Proposed Bill For \$300,000 Would Cover Cost Of Additional Land Needed

(Special To The News)
HARRISBURG, Pa., March 6.—A bill carrying into effect Governor John S. Fisher's budget recommendations for land purchases on the Pymatuning reservoir project was introduced into the house today by Representative Goodhouse, chairman of the appropriations committee, of Cameron county.

The bill carries an appropriation of \$300,000, according to reports. It is expected that this amount is sufficient to purchase all additional land that is needed for the launching of the reservoir project.

ELECTRIC LIGHT POLE FOUND AFIRE

Firemen were summoned to 302 Home street at 6:50 Tuesday evening, when residents in that district found that one of the electric light poles had taken fire from defective wiring. The Light company was notified and took charge of the situation.

body be removed to a local undertaking establishment.
The machine when found was up against the guard rail at the side of the road. The door opposite the guard rail was locked, while the one against the guard rail, while not locked, could not be opened because of the manner in which the car was wedged against the guard rail.

It was necessary for the police, who were summoned, to break open the door to get Simons from the machine. He was still living when removed, but died on the way to the hospital.

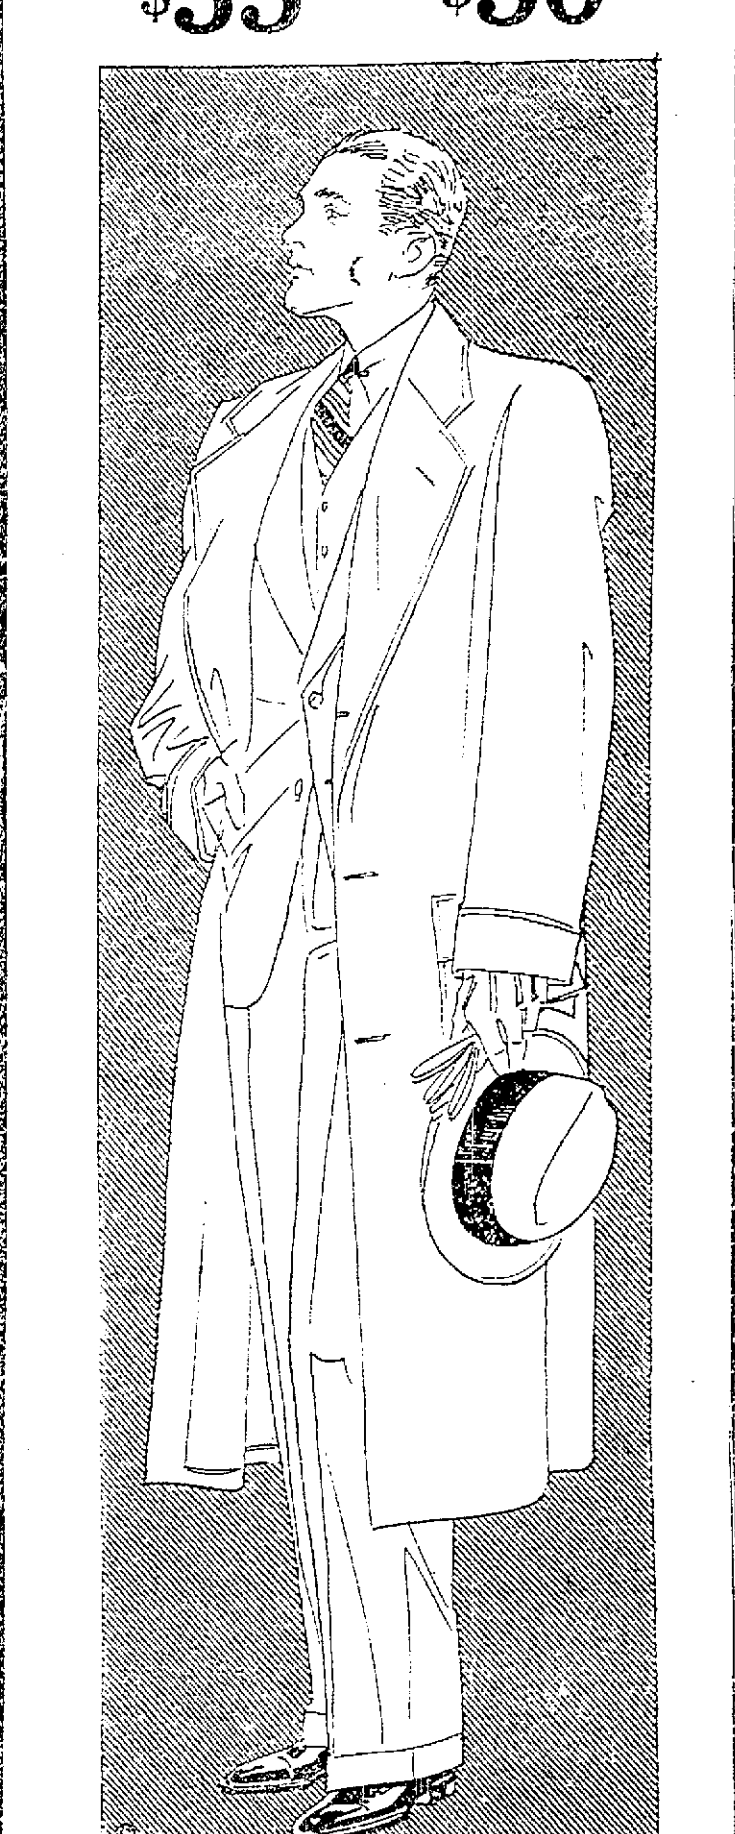

It is the opinion of the physician and others, who saw the case, that Simons must have suffered from a sudden attack of heart trouble, which caused him to lose control of his machine, causing it to go over the side of the road against the guard rail, as he lurched forward over the wheel of the machine in an unconscious and dying condition.

ATTRACTIVE BANQUET AT THIRD U. P. CHURCH

ELECT NEW OFFICERS AT A. B. D. MEETING

Baskets of tulips and daffodils formed a beautiful combination of color for the annual banquet given Tuesday evening by the Y. L. B. class of the Third United Presbyterian church.

An elaborate menu was served at 6:30 in the banquet hall by the W. M. G. class. Covers were arranged for 150, including a number of guests and new members. The entire evening's program was featured by a splendid spirit of fellowship and good will.

Mrs. J. H. Kocher was the toastmaster of the evening and introduced the several speakers. A number of toasts were given. Mrs. J. A. Wilson gave the toast "To Our Pastor," Mrs. M. P. Book "To Our Class," Mrs. J. E. Heminger "To Our Teacher," Mrs. H. A. Henderson "Our President," "Our Conventions," Mrs. G. C. Orr. Greeting to the new members were given by Mrs. W. R. McClane. A group of humorous readings by Miss Margaret Brown from Sharon and a saxophone solo by Francis Clark were well received. Selections by the orchestra and pep singing, led by Mrs. Katherine Clark, were given. Following the dinner a brief business meeting was held, at which time the following officers were elected: president, Mrs. Jennie Shaffer; vice president, Mrs. Iva Kennedy; treasurer, Mrs. A. E. Coulter; recording secretary, Mrs. Jessie Reed; corresponding secretary, Mrs. Bessie Gross; press correspondent, Mrs. Anna Sauer. The sum of \$825 was received at the meeting, which will be donated to the building fund of the church. This class is one of the most progressive in the Bible school. During the recent campaign many new members were added to its already large enrollment.

King's Daughters
The King's Daughters of the First Methodist Episcopal church held their monthly business meeting Tuesday afternoon in the church parlor. General routine of business was dispensed with and arrangements made for an all day sewing at the church the first Tuesday in April. The ladies will sew for the Children's Aid Society at this time. Plans were also made for the annual Easter service at the Alhambra Hotel.

Our country starts a new administration: the Mexican republic faces possibility of serious revolution. Gen. Calles, former Mexican president, leads Mexico's loyal troops against "the rebels." The states of Vera Cruz and Sonora are in the hands of the revolutionists. The revolution is a religious war and may last indefinitely.

Mildred Johnson, having sworn a mighty oath that she would be the first woman to cross the Atlantic from East to West, is hopping next May in a huge boat. Four men will come with her, and she will bring 2,000 pounds of express cargo.

Slippery Rock Girls' Team With New Castle Members To Enter Kansas Tourney

SLIPPERY ROCK, March 6.—"On to Kansas" is the slogan of the victorious girls' basketball team of Slippery Rock State Teachers college in its drive to raise \$1000 to take it to Wichita, Kansas, on March 25 in response to an invitation to compete with 37 other colleges for the championship of the United States. The invitation to the tournament came as a result of three consecutive years of victory, and was eagerly accepted by the college officials.

After defeating all the colleges in western Pennsylvania consistently for three years, the girls' team of the State Teachers college at Slippery Rock, Pa., was given an opportunity to compete with the teams of eastern Pennsylvania this year. On a week's trip in the east, recently the first game, that with Juniata February 15, was won 43 to 18. On February 18 the teachers made 43 points to Albright's 19, and continuing their good teamwork on February 18 they piled up 55 points to East Stroudsburg's 5. On February 19 the "Amazons from the West" conquered Swarthmore by a score of 46-25.

Besides the eastern victories, two games were played with Waynesburg college girls, resulting in an aggregate score of 96 for the teachers to 15 for Waynesburg.

This successful season declares Slippery Rock the champion girls' team of Pennsylvania. The coach of this victorious team is Miss Elmina Compton, who has built up a defense which works like magic and which in three years has never failed to win a game. There is no single star in the wonderful mechanism of teamwork that distinguishes the floor work of these girls. Not the least on the team is Sarah Loudon of New Castle, who scored six successive baskets in the Swarthmore game. Mary Loudon, also of New Castle, and Burnzetta Newton of New Wilmington are both a part of this team that works like a machine in its perfection.

The progress of the drive to secure teamwork on February 18 they piled up 55 points to East Stroudsburg's 5. On February 19 the "Amazons from the West" conquered Swarthmore by a score of 46-25.

Self Education At Public Library

Many Avail Selves Of Self Education Opportunities By Free Reading Courses

During the past four years the public library has received from the American Library Association a series of more than forty study course pamphlets called "Reading With A Purpose." These books have been widely used by persons who wish to read on a particular subject, those who hope to educate themselves and some who have not had the opportunity of a formal education.

Eighty-five per cent of these books named in these short readings courses are in the local public library and have been used and are being used a great deal.

The most popular courses thus far have been, English Literature by W. N. C. Carter, Great American Books, by Dallas Sharp; Psychology and Its Use, by Everett D. Martin. Other courses include biology, biography, music, philosophy, poetry, history, drama, sociology, and child rearing.

RED CROSS TO SPONSOR LIFE SAVING TESTS

Jack Herbert, Chapter Director, Will Be Supervisor Of Examinations

Announcement was made today that senior Red Cross life saving examinations will be given some time in the near future by Jack Herbert, chairman of the local chapter's life saving and first aid committee. A definite date for the tests will be announced later.

Red Cross attaches request that all who care to take the examination communicate with the local headquarters, leaving their names and addresses, immediately. Those who at some time passed the junior examinations are especially asked to take the senior exam. Senior life saving certificates will be given to all who qualify.

Another summer is rapidly approaching and it is the hope of the Red Cross here to have any number of senior life guards in the community to function should any emergency arise, or to instruct beginners should they care to do so.

Petroleum Works Elects Miller As Its New President

(International News Service) SHARON, Pa., March 6.—Arthur O. Miller, of Youngstown, O., today was elected president of the Petroleum Iron Works here, succeeding J. R. Considine of Sharon, resigned. Miller was formerly vice president in charge of sales of the firm of Reeves Bros. of Alliance, Ohio. Considine, who has been president of the company since 1920, plans to take a rest, before deciding upon any future activity, he said.

Other officers, re-elected, are: E. E. Shanon and J. A. Connolly, vice president; H. C. Knowles, treasurer; and J. L. Sullivan, secretary.

Local Man's Speech At Williamsport To Be Published And Sent Broadcast

The address of Matthew Guntion of this city, chairman of the City Planning Commission and member of the Board of Zoning Appeals, at the recent state convention of the Pennsylvania Association of Planning Commissioners held in Williamsport, is proving to be one of the big features of the convention and one of the biggest things that has been heard in this connection in the state for many years.

It is to be printed by the association and distributed but Mr. Guntion has just received a letter from J. Leo Buetner of Johnstown, Pa., secretary of the Pennsylvania State Association, stating that it was the most

Board Withholds Decision Tuesday

Will Act Later In The Matter Of Moravia Street Wrecking Grounds

There was but one case before the Board of Zoning Appeals on Tuesday afternoon at its monthly session in the city council chamber.

It was the appeal of W. R. Jones from the decision of the city engineer's office, refusing a permit to use his property at 1215 Moravia street as an automobile wrecking place.

There were no persons appearing in objection to the proposed use of the property and Mr. Jones presented a paper signed by numerous property owners and residents of the district stating they had no objection to its use for that purpose.

Mr. Jones stated that the persons desiring to rent his property for that purpose had wrecking yards in other parts of the city. The board withheld its decision for a number of reasons, among them being the desire to eliminate present wrecking yard conditions of the city which are not adding to the attractiveness of any district in which located and also the fact that such a business is not permitted in secondary business districts such as that in which the Jones property is located.

It was suggested to Mr. Jones that if the proposed renters of his property

Jailed Seven Years In Rectory Arson

Fourth Man Is Imprisoned In
Mahanoy Plane Revenge
Conspiracy

Burning Resulted When
Priest Warned Against
Roadhouse Patronage

POTTSVILLE, Pa., March 6.—Frank Fott was today sentenced to serve from seven to fourteen years in the Schuylkill county prison for his part in the burning of the Holy Rosary Rectory at Mahanoy Plane on the morning of June 15, 1926.

He was twice convicted of the crime but his first conviction resulted in the Superior court granting him a new trial and he was recently convicted for the second time.

One year was logged from Fott's original sentence, because he has already been in prison approximately ten months, which would mean a year off the sentence. He originally received from eight to sixteen years. He was, however, directed to pay a fine of \$500 and costs in addition to his imprisonment.

This is the fourth person placed behind the bars for the outrage, which was perpetrated because Father Fleming had preached a sermon in his church warning his parishioners to keep away from a roadhouse located a short distance from the church. Fott, Tony Spallone and Tony Scatton were arrested for the crime and all three were convicted. The last-named two received sentences of from six to twelve years, and Fott was then tried, the other two being called as witnesses against him.

Carlo Romano was arrested recently as the fourth member of the gang and implicated Fott, claiming that although he was not at the scene of the fire, he was one of the arch-conspirators and was in Shenandoah when the actual fire occurred.

Romano received a sentence of from three to six years.

Dog Owners Pay \$3,000 In Fines In Meadville Vicinity

MEADVILLE, March 6.—More than 200 residents of Meadville or immediate vicinity have contributed a total of nearly \$3,000 during the past week simply because of their failure to comply with that section of the law that makes it necessary for dogs to be properly licensed.

H. E. Hisey of Stoneboro, chief dog inspector of northwestern Pennsylvania, has been making a house-to-house canvass of the city and surrounding district, and in each instance where it has been found that a dog is without the proper 1929 license, the owner is given a summons to appear before a magistrate. There he is relieved of \$9.55 for his oversight, \$5 of this representing a fine paid to the commonwealth.

Mr. Hisey has far from completed his work here and no doubt more Meadville people will be served with summons before the public is fully educated in the necessity of obtaining licenses for dogs.

Lowellville Loses Action In Appeal On Court Decision

(International News Service)
WASHINGTON, March 6.—The village of Lowellville, Ohio, today lost an appeal to the supreme court for review of a lower court decision holding that the village could not prevent the East End Traction company from operating after its franchise had expired.

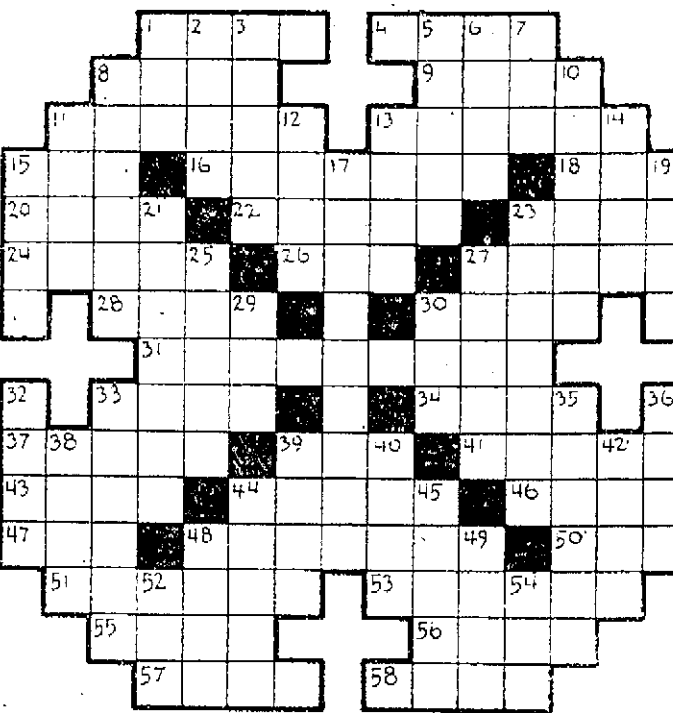

The traction company relied on an order of the Interstate Commerce commission holding the line was part of an interstate line from Lowellville to Youngstown and New Castle, Pa.

HAVE KIDNEYS EXAMINED BY YOUR DOCTOR

Take Salts to Wash Kidneys If
Back Pains or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink.

80 State Troopers Raid Slot Machines

Confiscate Even Penny Devices
In Snyder And Northumberland

SELINGROVE, Pa., March 6.—Eighty state policemen visited Snyder and Northumberland counties unexpectedly and seized 75 one-cent and 25-cent slot machines worth \$10,000. They carried at least \$1,500 in money in them. Fines for their possession and operation will mean another \$1,000 the police said. The gambling devices were placed in the Northumberland county jail and the money will be turned into the county clerk's office.

The troopers came here without warning and took the operators by surprise. Not even the local police knew of the raid. It was when business was good according to one operator when the officers arrived. They took the machines and the names of the men behind the counters and went on their way. The defendants will have hearings tomorrow night before an alderman here. The raid was in charge of Monroe D. Bennett, Troop E. Harrisburg assisted by Sergeant Dahlstrom of the Sunbury detail and was made after hundreds of complaints were received.

The troopers assembled from all state and took their places where they were to raid. At a given time the work started. It was done so quickly and quietly that but few in the territory knew about it.

Goes To Visit Son, Stays As Prisoner

WAYNESBURG, Pa., March 6.—E. O. Brown, 53, of Enterprise, near Clarksburg, W. Va., was lodged in the Greene county jail on a charge of obstructing the process of justice. Brown is the father of Elmus Brown, 17, who is being held in the jail for an attack on Sheriff Arno S. McClellan last May when the officer went to Penn Pitt, in Greene county, to arrest the Brown youth on a charge of robbery. The elder Brown was arrested when he came to visit his son in jail. He is charged with having attempted to prevent his son's arrest.

Bad Roads Cause Of Farm Failures

HARRISBURG, March 6.—A new reason for the decline of farming in Pennsylvania—bad roads—was advanced here by R. S. Blackwood of Beaver Falls, president of the Pennsylvania State Association of Township Supervisors.

Mr. Blackwood, in a prepared statement, said over 60 per cent of Pennsylvania farms are situated along earth roads. In advocating a larger return of state funds to the townships for improvement of roads in the rural communities, he quoted figures of the United States census to show that "117,802 farms in the state are on 'unimproved dirt roads' and 29,863 on 'improved dirt roads'—in other words, on an earth road that has been graded and drained."

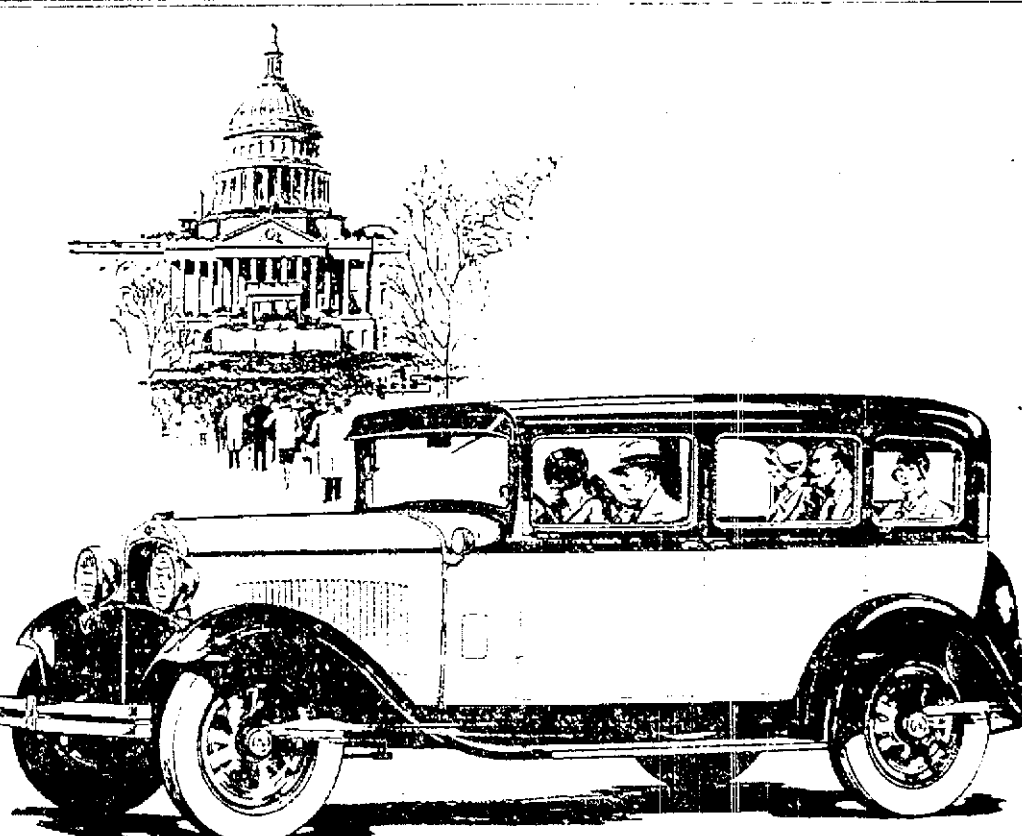

"The townships face a critical condition and Pennsylvania's agricultural position among American states is threatened," he continued. "Each year hundreds of additional Pennsylvania farms are abandoned."

THE SAD END OF A PERFECT DAY

This time Peter was patient and waited for Polly to feel better. After she had wiped the tears from her eyes with her wing, Miss Parrott continued:

"After a time, however, Cousin Polly and I grew tired of these sports. 'Come on, cousin,' said I, 'let's go in for a spin in the air.' And we did. Suddenly the wind came up and the clouds that had seemed so bright and clear now grew dark and stormy. Polly was frightened and started to turn around. I didn't see her coming—I was watching the cross waves as they slapped at the shore of the stream right beneath us—and although I wasn't looking where I was going I was going just as hard and fast as I could and I bumped right into—

"Cousin Polly, a cry of pain, and before I could stretch out a claw to catch her she had fallen to the ground. Then the rain came down. I could no longer keep my own wings moving and I sank upon the bank beside her.

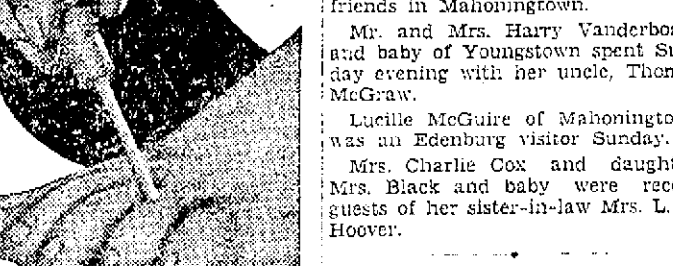

"I tried to help her—to coax my cousin to her feet, but she didn't seem able to move. I wasn't a bit larger than she was so I couldn't very well carry her off in my beak. All I could do was to run home to the sycamore tree for aid—and I did.

"The whole family came back with me to rescue Polly, but when we reached the spot where she had fallen there wasn't a sign of her—not even a feather to be found—and from that day until this I have never known what became of my little playmate."

The bird's head began to droop and Peter was afraid Polly was going to weep again. He spoke quickly.

"Well, there is one thing sure—your long lost cousin and my Polly were one and the same. Uncle must have come along and picked up the little bird while you were going for help."

"Don't feel so badly, Miss Parrott, please. Polly was as happy as the day was long until she met Mrs. Crow and lost the fight over the kernel of corn. Why you just ought to have seen her! She chattered and laughed from morning 'til night and she would call me in a voice that sounded exactly

W. B. A. Women Attend Luncheon

District Deputy Is Hostess To
Camp Officers; Summer
Plans Made

Mrs. Ada R. Stone, Butler, Pa., entertained the officers of the W. B. A. Lake Huron Summer Camp of this district at a one o'clock luncheon at the Hotel Nixon, Butler, on Tuesday. Following the luncheon a meeting was called by the president, Mrs. Stone. Plans were made at that time to take a shack at the summer camp at Port Huron, Mich., for the coming season in order to give members of the different reviews a chance to spend their vacation at the summer camp.

Mrs. Stone has the honor of being the first district deputy of Pennsylvania to reserve a shack. During the meeting it was decided to name the club the "Volunteer Club" of W. B. A. Lake Huron summer camp, and the name for the shack is "Brown Betty Shack." The club color is to be green and white.

Miss Aiken, Pittsburgh, recording secretary, and Mrs. Blanch Raught, of Allegheny, camp manager, will go to Port Huron in June and open the shack for the season.

The next meeting of the Volunteer club will be held in New Castle sometime in April.

INSTEAD of exercise

Do it tonight! Join the ranks of the millions who know the secret of the exerciser in the vest-pocket for a dime!

Cascarets give your bowels as much exercise as you get from an hour on the links. Oils, salts and ordinary laxatives don't act like Cascarets. These things only produce mechanical or chemical action which really weakens your bowels.

Each time you use Cascarets your bowels become stronger! They are made from Cascara Sagrada, which stimulates the peristaltic action and exercises the bowel muscles. Nothing else does this. That's why Cascarets are selling at the rate of 20 million boxes a year, and people everywhere depend on them for lasting relief from headaches, biliousness, constipation, indigestion, etc.

Plans for civic development in the community include the selling of memberships to raise needed funds for the completion of projects.

Direct Descendant Of Hamilton Dies

Mrs. A. R. Hodge Of Grove City Called By Death; Other News

GROVE CITY, March 6.—The funeral services of Mrs. A. R. Hodge, age 54 years, were held Tuesday at 2:30 at her late home, Hillcrest Circle, with the Rev. Charles H. Williamson, pastor of the First Presbyterian of which she was a member officiating. Interment was in Woodlawn Cemetery.

Mrs. Hodge had been ill for 15 months and had been unable to attend her social duties for over a year. She was a direct descendant of Alexander Hamilton and was born in Jackson Center, the daughter of Mr. and Mrs. Maletus Small. She was a charter member of the General Hugh Mercer Chapter D. A. R. and a member of the local chapter of Eastern Star.

Mrs. Hodge is survived by her husband, A. R. Hodge, prominent banker and business man, and the following children: Mrs. William McClelland, Bellevue; Mrs. Joseph Morledge, Hickory, near Pittsburgh; Mont Hodge, Cashier of the Grove City State Bank. Two sisters and one brother also survive, Mrs. David Noble, Jackson Center; Mrs. Lee Conrad, Canonsburg and Harry Small, Buffalo, N. Y.

PRAYER MEETINGS
A series of cottage prayer meetings, sponsored by the churches of Grove City, will start this evening and continue until Palm Sunday.

Mercer Church To Canvass Members

MERCER, Pa., March 6.—The Mercer county townships out of 32 have petitioned the court since January 1 for increases in their road millage.

The ten mills allowed by law is just about sufficient to do the necessary repair work, the additional amount being for improvements. The last three townships to take such action are Pine, Deer Creek and Saddy Creek. An additional five mills is asked by each of the trio. All are in debt for improved roads built.

Fayette Jail Is Barred To Willing Lodgers

County Prison Board Clears Crowded "Pen" Of Trivial Offenders To Make Room For Real Criminals

UNIONTOWN, Pa., March 6.—Valerians, railroad trespassers or habitual drunkards of Fayette county will find it more difficult to obtain free board and lodging in the county jail from now on. The prison board has voted to bar such prisoners in the future and to release at once the two score who have been committed for terms of from thirty to ninety days. Prisoners committed for trivial offenses have crowded the prison to such an extent that the cost has been far beyond that necessary to incarcerate the men and women charged with more serious offenses. The board has served notice on all justices, aldermen and mayors in the county they will have to care for their own prisoners except where serious offenses are charged. It has been the practice of railroad companies to arrest trespassers by the wholesale and commit them to jail. This was not objected to by men who desire to be fed and housed during the winter. Towns and cities have refused to pay for the maintenance of their prisoners sent to the county jail. At present there are 150 men and women in the prison and more than three score at the prison camp. In the future the average in the prison is expected to be around the 100 mark.

West Side School Is Thrift Leader

Highest Average Per Pupil Reported For Month By West Side School

The West Side school had the highest average per pupil in the thrift system of the New Castle and three county schools, their average being 44c per pupil deposited in the automatic receiving teller in the school. The Highland avenue school was second with an average of 41c per pupil, and the Arthur McGill school was third with an average of 32c per pupil.

The following are the remainder of the schools in the order of the amounts deposited in the receiving tellers for the month:

Thaddeus Stevens school, 24c per pupil; Oak Street school, 15c per

pupil; George Washington Jr. high school, 13c per pupil; Benjamin Franklin Jr. high school, 12c per pupil; W. N. Aiken school, 10c per pupil; Lawrence school, 10c per pupil; Mahoning school, 10c per pupil; Rose Avenue school, 9c per pupil; North Street school, 8c per pupil; Croton Avenue school, 8c per pupil; Lincoln & Garfield school, 7c per pupil; and Pollock school, 6c per pupil. In the county schools outside of New Castle, the Shenango Consolidated school deposited \$177.84 during the month of February in the automatic receiving teller, the Scotland school in Union township deposited \$32.25 and the North Beaver Consolidated school at Mt. Jackson deposited \$28.55.

The total amount deposited in the automatic receiving tellers by the city and three county schools was \$1,569.47 for the month of February.

Weaver Will Speak At Y Boys Banquet

Dr. H. C. Weaver Will Speak At Y. M. C. A. Midget Boys And Mothers Banquet Friday

Dr. H. C. Weaver, pastor of the First Methodist church of this city, will address the members of the Y. M. C. A. midget group and their mothers at a banquet which will occur Friday evening at 6:30 o'clock in the Y. banquet room.

The dinner will be served promptly at six in order that the boys may be out of the affair in time to get to the high school play.

As an added feature there will be a play presented by the Friendly Indium club, the leading characters of which will be Gethin Thomas and Lee Prosser.

Robert Golder, Ernest Snyder, boys of the group, and William Thomas, boys' director, will be in charge of the meeting.

Indications are that there will be a large crowd of boys at the affair. Some half hundred have already announced their intentions to be present with their mothers.

Moravia Presbyterian church will hold a baked ham supper in the church dining room Friday, March 8, 6-9 p.m. Price, 60c.—Adv. 11.

TELLS OF CANTON BANQUET

Canton, O., March 4, 1929.

To the Editor of The News: Dear Sir:—I have thought many times to write your paper, owing to the fact that I spent most of my time in your city a member of the Congregational church. What I desire to write about this time is as follows:

The Welsh American Association and the Ladies Auxiliary of the association in Stark county, O., held their annual banquet on St. David's Day. It was the best ever held here.

The committees were very fortunate to have such men as Rev. Joseph Lloyd of Youngstown, Harry Evans and George Anthony of New Castle, and Tom D. Richards of Warren, O.

The banquet room of Hotel Northern was filled to its capacity, 300 people being seated at the tables. The toastmaster, Councilman Ed J. Hopkins, introduced the speakers of the evening. Rev. Joseph Lloyd of Youngstown spoke on the characteristics of the Welsh. He kept the audience on edge with his great oration.

Mayor C. C. Curtiss of Canton, the other speaker, complimented the Welsh people on being such a splendid type of citizen. The stars, Harry Evans and George Anthony, were the great hit of the evening in singing their duets and solos. They have made a home among the Welsh of Stark county, O., as did our Tom D. Richards of Warren, O., who is well known in Canton and one of the favorites among the Canton Welsh, with his songs.

He was conductor of the singing, and among the numbers presented under his direction were "Gwyn Rhonda", "Huddersfield", "Dial", "Aberystwyth", four well-known Welsh songs.

The male chorus sang "Harlech" and "All Through the Nights". The banquet was arranged by the Welsh American Association and the Welsh Ladies' Auxiliary to pay homage to St. David, whose memory is so revered by the Welsh people on account of his many kind deeds.

The committees were made of former New Castle and Ellwood City old-timers, Howell Williams, Edward Hopkins, George Emrys Hopkins of Ellwood City, John K. Rosser, Tom D. Jones and Thomas J. Rosser of New Castle. The accompanist was Mrs. Catherine Emrys Hopkins and Tom D. Richards of Warren, O., the pianist. All the names mentioned are old-timers of Lawrence county. Success to your paper.

Yours respectfully,

TOM D. JONES,

Secretary Welsh American Association of Canton, O.

MEN HOLD BANQUET

The Men's Bible class held a banquet at the Presbyterian church on Friday evening. The men entertained their wives. There were about 120 present. Rev. Dickenson is the present teacher and Burt Studebaker, president. The toast master was Howard Pizer. An orchestra consisting of Miss Lillian Patterson, violinist; James Stevenson, cornetist; Kenneth Dight, clarinet; Alex Brown, trombone and Mrs. Sarah Stevenson, pianist, furnished music.

A talk was given by W. J. Offutt of New Castle, who was the original organizer of the class. Other members on the program were as follows: Reading—Clifford Martin.

Quartet—Clarence Stevenson, Chas. Eppinger, Harry Miller and L. A. Pollock.

Music—Vera Pizer, mandolin; Russell Pizer, trombone, accompanied at the piano by Mrs. Oscar McDaniels.

Songs were sung during the evening by the members of the class.

The wives of the members prepared the banquet and the men served it. The committee was Clarence Stevenson, Will Cunningham and Clifford Martin. The special guests of the evening were: Mr. and Mrs. Harry Miller who responded with a short talk and Mr. and Mrs. W. J. Offutt of New Castle.

QUILTING PARTY
The Ladies Aid of Mount Pleasant

DON'T STARVE TO END FAT

Few succeed without harm. Try the modern way, embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. The results are seen everywhere.

Marmola contains a gland element which helps turn food into fuel and energy. The formula appears in every box, also the reasons for results. Thus you will know how the changes occur without harm.

All druggists supply Marmola at \$1 a box. Go start it now. Take four tablets daily until weight comes down to normal. Do this because of the new beauty and vim which Marmola has brought to so many, for so long.

Mr. E. church held a quilling party at the home of Mrs. Oscar Rodgers on Wednesday. This was an all day affair. At the noon hour a delicious tureen dinner was served. There were 14 members and 4 children present. Those in attendance were: Mrs. Nellie McNulty, Mrs. Margaret McCommons, Mrs. Wilson, Mrs. Minnie Allen, Mrs. Helen Fernick, Miss Laura McNulty, Mrs. Martha McCommons, Mrs. Mary Winder, Mrs. Minnie Winder, Mrs. Charles Daniels, Mrs. Della Johnson, Mrs. Oscar Rodgers.

Mr. John Dight has returned from Pittsburgh where he was one of the Federal jurors.

The infant son of Mr. and Mrs. Will Shoff was laid to rest in the Presbyterian cemetery, Saturday.

Born to Mr. and Mrs. Harold Heasley a daughter. Mrs. Heasley will be remembered as Miss Lillian Cotton of Volant.

A serenade for Theodore Book and bride was held on Monday. Theodore Book lived in this community several summers.

The Young Woman's Missionary society will hold a meeting in the U. P. church Friday evening. The men and juniors will meet with them.

The jurors for the week of the 11th from here are following: Mrs. Elizabeth Gardner, Mrs. Fannie Cooper, Lois Hamilton and Mr. John McCalmont.

John and Russell Boyd of Slippery Rock and Mr. and Mrs. Jesse Hamilton and daughter Eva Motored to Pulaski on Sunday to visit Mr. and Mrs. Carl Boyd.

Mrs. Margaret Studebaker was laid to rest in the Presbyterian cemetery on Friday. Mrs. Studebaker was 90 years old and lived near Jacksonville.

She was the widow of David Studebaker. She was the grandmother of Mrs. Ausel Connell and Mrs. Charles Bay of Plaingrove. Members of the Plaingrove Presbyterian choir sang.

House Members Face Heaviest Calendar List

More Than 125 Bills To Be Considered By House Members At Session Today

JONES BILL IN FIRST READING

By ROBERT F. GORMAN
International News Service Staff Correspondent
HARRISBURG, March 6.—The house met at 10 o'clock today and went to work on the year's heaviest calendar, made up of more than 125 bills.

The Jones bill which would repeal the anthracite coal tax as soon as the bill would be signed by the governor was given its first reading today. A dozen bills were passed on second reading, including the Jones bill to amend the federal labor laws by permitting women to work at night in pie bakeries. Other bills passed on second reading included the Welby bill validating the issuance of certain bonds as the result of municipal elections; the Hartsock bill validating township contracts; the second bill providing for an additional judge in Washington county; the McJinger bill making municipal corporations operating street cleaning or highway repairing plants liable for the negligence of employees; and the Goodnough bill providing for the payment into the state treasury of fees collected by the bureau of medical education and licensure.

To Arrange Celebration.
The house adopted the resolution sponsored by Representative Shesley Adams, calling for a report from the commission appointed by former Governor Pinchot to arrange with a federal commission for the two hundredth anniversary celebration of George Washington.

The house passed finally the Buckman senate bill providing for an assistant district attorney in six counties and the Mansfield bill also a senate measure, providing for the assessment and collection of poll taxes from employees of the federal government in order to qualify such persons to vote.

The Marcus bill amending the act fixing the pay of election officers in second class counties and the Bidel-schacher bill conferring jurisdiction upon the common pleas courts to issue injunctions to restrain violations of the act prohibiting the unlawful wearing of fraternal buttons and badges were passed finally.

Marriage Bill Sent Back.
Representative Maybell Kirkbride, Montgomery, sent the bill providing new requirements for the obtaining of marriage licenses back to committee for amendments.

County commissioners would be required to prepare "street lists" of registered voters under the provisions of the Rhodes bill which the house passed today.

The Ederer bill providing for the maintenance of roads and streets on the boundary line between cities or boroughs and townships was another to be passed.

The Heffran bill validating bonds issued or authorized to increase the indebtedness of municipalities also was passed finally.

Some of the other bills given final approval by the house were: The Peters bill prohibiting the opening or construction on any highways in townships with permission of commissioners or supervisors; Rice bill making an additional appropriation for the construction of the Soldiers and Sailors Memorial bridge; twenty-five bills repealing obsolete acts; senate bill providing for regulations governing midwives; senate bill to promote the public health in third class cities; and the senate bill authorizing the establishment and operation of county hospitals for women.

Lion's Club Will Have Guild Present Play

Civic Theatre Guild Now Has Two Productions To Present

At a joint meeting of the committee representing the Lions club and representatives of the Civic Theatre Guild held Monday night, it was decided that the guild should present a play for the club at a place to be designated later on Thursday and Friday, May 2 and 3, just three weeks after the presentation of "Dulcy" for the Garden club by the Civic Theatre Guild. The proceeds will be for the benefit of the eye, ear and nose clinic held under the auspices of the Lions club. It will be either a mystery play or a farce.

Rehearsals for Dulcy are being held each night now. The cast for this play will probably not be announced until the week before its presentation.

Says Air Mail Stop Requirements Met

W. M. Nunn, chairman of the Worcester Club committee acting in the master of trying to have this city made a regular air mail stop, stated this morning that the campaign to increase the air mail receipts here to a point that will entitle the city to the stop, had been successful. There has now been pledged 30 pounds of air mail a week, according to Mr. Nunn, which he believes meets the requirements.

There is one point on which neither Mr. Nunn or the postmaster have as yet made certain, and that is whether or not it is required that the five pounds of air mail is also required on Sunday. A move is now under way to ascertain this.

Mr. Nunn stated that the committee appreciated the hearty co-operation of the people of the city in pledging the amount of air mail required to have this city made a regular stop.

He also calls attention to the fact that this is not merely a matter of a month or two, but a permanent proposition, which the people must maintain month in and month out. There is no doubt but that, should the mail be continued at the rate of five pounds of mail a day for a year, by that time it will continue to take care of itself without any special effort on the part of any individual or corporation here and that the city will be a regularly established air mail stop.

There will be a special meeting of the Worcester club and committee on air mail at the city council chamber this evening.

MEXICAN FEDERAL AND REBEL TROOPS ARE NEARING CLASH

(Continued From Page One)

er, today planned to make a determined effort to capture Torreon, another important railway center, according to reports received here.

The city was taken after an all night battle in which 550 of the thousand defending Federal troops were captured, reports from rebel sources stated. The number of casualties was not stated but General Lurriaga, Federal commander, was listed among the dead.

Reports from across the border also stated that Federal troops were being concentrated at Nuevo Laredo to defend the city against a possible drive by the Rebels.

If an engagement follows at Nuevo Laredo, United States troops from Fort McIntosh will probably be rushed to the American side of the International Bridge here to see that residents on this side of the border are not endangered.

Goal Of 700 Set By Gaston Post In One-Day Drive

Biggest Campaign In History Of Local Post Is Planned For

Cup Is Offered In Contest Between New Castle And Beaver Falls

Announcement was made today by General Chairman Dr. H. H. Rosenthal in charge of the membership drive of Perry S. Gaston Post, American Legion, of the chairman of the sub-committee and team captains for the coming one-day campaign during which time it is planned to increase the membership of the post to 700.

At Castle made a strong bid for the Legion convention for 1929 and were promised that the convention would be brought to New Castle in 1931. However in order to get the convention two years hence it is necessary for the post to show the state leaders that they possess a real live organization, capable of putting over a stupendous task.

The recent National Commander's banquet was a big feather in the cap of the post, National Commander M. C. Nutt stating that he had attended but one other dinner which was on a larger scale, that staged in Boston. Naturally the event brought the post into the limelight in the community.

To stimulate interest in the campaign, drive District Commander Mike Kane has offered a cup in a membership contest between the New Castle and Beaver Falls posts. The New Castle boys accepted the challenge and have spotted Beaver Falls 100 members because of the limited territory they have to draw from. No prizes will be allowed Commander Kane asserts.

Team captains who were announced today are Paul Welch of the "Zero Hour" brigade; Dr. Raymond C. Lutz of the "Fast Commanders"; Wilbur Chapman of the "Hell Cat" division; and Nick Speed with "Mopwings". The members of the different teams will be announced within the next few days.

The P. and O. Electric Co. has generously donated the use of their window in the interests of the coming campaign and displays will be shown in the window from the 13th to the 17th of March. The drive proper will open on the evening of March 14 and will be concluded with a Victory parade at 10:30 on the night of the 15th, the conclusion of the campaign.

The winning team on this occasion will eat chicken while the losers will dine on plain bread and water.

The slogan of the coming campaign is "Every Ex-Serviceman a Legionnaire." As far as possible every veteran of the late war in the district of New Castle and its surroundings will be seen on this occasion.

Wealthy Youth May Face Murder Charge

Pretty Young Girl Is Victim Of Poison Alleged Administered By Erring Youth

(International News Service)
SALISBURY, N. J., March 6.—This treacherous farm town with its 100 population was on fire today over the poisoning of one of its pretty school girls.

Alice Whitesell, only 18, is dead. She was a poor girl.

Harry Bloomer, high school "shiek", and member of a wealthy family, admitted buying strychnine and giving it to her on February 19, according to Sheriff J. Emmor Robinson.

"Harry said he didn't want to kill her—only help her out of her condition," said Robinson.

But there was a girl Bloomer did want to marry. She is a pretty blonde, Eleanor Butler, 20, daughter of a well-to-do family.

Eleanor is critically ill. Harry is alleged to have left this girl he loves parked in the automobile while he bought the "rat poison" for the other girl he didn't want to marry.

"Harry is a crook," means Eleanor in her illness. "He was in Sunday school with me when they say he was giving that girl poison."

A coroner's jury will decide tomorrow whether Alice committed suicide or whether Harry Bloomer is to go on trial for murder.

FIREMEN CALLED

Firemen were called to the home of Joseph Butler, 107 E. Howe street, by alarm from box 54 at 1 o'clock this morning. Crossed wires had set fire to clothing and had ignited furniture nearby, it is believed.

A brisk blaze was in progress when the department arrived on the scene, but they were able to extinguish the blaze with but a loss of \$50 to the home and contents. The house is owned by H. G. Miller & Son.

Revised Administrative Code Is Reported Out

One Of Important Amendments Creates State Military Reservation Commission

Several Salary Raiser Amendments Included In New Administrative Code

By CLYDE SHUE
International News Service Staff Correspondent

HARRISBURG, March 6.—After being amended to suit both members of the committee and the administration, the revised administrative code today was reported from the judiciary general committee to the floor of the senate.

One of the more important amendments creates a state military reservation commission to act in an advisory capacity in the department of military affairs. The commission's sole duty will be to make a careful study of the military reservation at Mt. Gretna and to recommend either its retention or removal to a larger site.

Criticism of the fiscal code now before the house because it places too much power in the hands of the governor, was met at least partly by an amendment to the administrative code restoring the board of finance and revenue to the state treasury. The state treasurer instead of the secretary of revenue will be the chairman.

Salaries Are Increased.
Another amendment abolishes the section of the original draft which created a chairman of the state aeronautic commission with a \$7,500 salary. The new proposal leaves Secretary of Internal Affairs James P. Woodward the chairman without salary but permits him to name a vice-chairman at a salary to be fixed by the commission.

Another provision exempts the state treasurer and auditor general from making detailed reports on the use of the automobiles in their departments. That provision now applies to the state police.

The amended code will require the department of public instruction to call in an advisory board of any public profession when acting upon applications for licenses which may be required by future legislation. When a state organization of the cult or profession exists selection from its nominations for the board will be compulsory.

Under another amendment the public service commission, with the longest service will act during the incapacity of the chairman as chief of the body. This plan will make S. Ray Shelby of Uniontown the acting chairman if Chairman W. D. A. Aney is unable to perform his duties.

The salary of the superintendent of the state police is increased from \$6,000 to \$7,500 under another amendment.

More than 200 typographical errors also were corrected in the amendments.

UNIVERSITY MAN SPEAKS AT NOON

Representative Of U. Of P. Extension Department Makes Splendid Address

Dr. C. H. Meyeshotz of the University of Pittsburgh's extension department, paid a fine compliment to the high educational standards maintained by the New Castle board of education when he delivered an address before the local Kiwanis club at noon.

He likewise paid a personal compliment to the superintendent, Dr. C. C. Green.

Dr. Meyeshotz was introduced by Dr. C. B. Wingerd of the Central Presbyterian church, a member of Kiwanis, in the absence of Julius Blaha, chairman of the program committee.

"Education today consists primarily in instructing children, girls and boys and men and women to do their part in the most efficient manner that is possible," the university representative said. He had as his subject "Adult Education."

"The early conception of education was very narrow," he continued. "It was limited mostly to instruction in the three R's and instruction to the limited few who could afford to go to the universities. Universities were established at first for educating those who aspired to be ministers, doctors and lawyers."

"Today education is widespread and everyone knows that it's not narrow. Through our colleges young men and young women can educate themselves for any line of endeavor no matter what it may be. Colleges now are not only for students who desire to enter the ministry, or take up law, but for all."

"Education today is decidedly utilitarian, and the aim and purpose of colleges and universities is to educate girls and boys, men or women, no matter who it is, to do their work more efficiently, no matter what kind it may be."

The university man then went on to say that the University of Pittsburgh gave instruction to 16,000 students during 1928, including all those who are in any way associated with the institution. He told of the plans of the university and how, when the building and consolidation has been carried through, the City of Pittsburgh can boast of the largest medical center in the United States. It is estimated that approximately \$20,000,000 will be spent on this one huge undertaking, all to provide facilities, whereby the students who attend practice to educate themselves for the practice of medicine can learn to practice medicine later more efficiently.

New Coal-Iron Police Bill In Hands Of Solons

HARRISBURG, March 6.—The bill to further control the coal and iron police, now being prepared by Attorney General Cyrus E. Woods, will limit the jurisdiction of each appointee to the premises he is being paid to guard or "a reasonable distance" from them.

In discussing the yet un-sponsored bill, Governor John S. Fisher said today that one of the chief weaknesses of the present system is the lack of restriction over the movements of the policemen.

The governor said he intends to have some person in the executive department be responsible for both appointment and revocation of all coal and iron police commissions.

While the proposed supervision will be closer than at present the coal and iron police will in no way be connected with the state police, the governor said.

New Bills In House Hopper

Many New Bills Find Way Into House Hopper At Session Held Today

HARRISBURG, March 6.—New bills continued to find their way into the house hopper today. The first to be presented was one regulating the business of assisting employers to obtain employees. It was sponsored by Representative Goehring, Allegheny county.

Representative Erdley, Snyder, presented a bill appropriating \$230,000 to the Seneca State College of Education. Compensation and mileage of auditors and jury commissioners in the several counties would be fixed by law under the provisions of a bill sponsored by Representative Peeler, Indiana.

Other bills introduced include: Appropriating \$10,000 to the Community hospital, Kane.

Mumford, Warren — Appropriating \$10,000 to the Warren General hospital.

Davidson, Allegheny — Permitting raccoons to be hunted for between one hour before sunrise and one hour after sunset.

Enches, Berks — Repealing the sections in the fish code which prohibit Sunday fishing in Pennsylvania.

Wheeler, Forest—Permitting directors of the poor to employ welfare workers.

Griffith, Indiana—Fixing the fees and regulating the operation of tractors and trailers on Pennsylvania highways.

Jack James Challenges Tommy Jones To Race

Lookout Tommy! Tommy Jones we mean. Jones doesn't "not choose to run." James says he has known Tommy since he was very small, and still thinks that despite his age he can trim the police officer in a race jump, or anything.

James also says that he smokes about once a month. He eats no meat.

For further information regarding the matter (of which we know very little), Tommy is asked to get in touch with James at his home, 119 South Jefferson street.

Aged Woman Meets Death Enroute To Daughter's Funeral

Mrs. Samuel Hodge, 82, Of Franklin, Crushed In Auto Accident On Grove City Road

(Special To The News)
GROVE CITY, Pa., March 6.—Mrs. Samuel Hodge, 82, of Franklin, was crushed to death on the highway near Barkeyville at noon Tuesday when she was enroute here to attend the funeral of her daughter Mrs. A. R. Hodge of this place.

The car in which she was riding entered on the icy concrete, the door flew open, and the aged woman was crushed against a mail box by the roadside.

A passing car rushed her to Franklin but despite every effort on the part of physicians, she expired at 1 o'clock. The woman was badly crushed about the abdomen and was bruised over her entire body.

Funeral services will take place from her home in Franklin Thursday at 2:30 o'clock. In addition to one daughter, Mrs. C. E. Barnes of Franklin, and two sons, Walter of Mercer and A. R. of this city, she leaves her aged husband, Samuel Hodge, 84.

Aged Jail Inmate Beggars Court To Send Him To Penitentiary

UNIONTOWN, Pa., March 6.—For the last three years an almost constant guest in the Fayette county jail, Charles Fox aged man of Connelville pleaded today in vain to be permitted to remain behind the bars of the county prison or to be sent to the Western penitentiary or workhouse for at least three years. Notwithstanding his pleas that he had no place to go, he had no means of making his livelihood the court ordered his removal along with many other "beggars" from the county prison.

"Send me to the penitentiary or the workhouse, judge, won't you?" wailed Fox.

"How long do you want?" interrogated the court.

"Make it three years anyhow, judge. Luck has been against me and that would give me time to straighten up," replied the prisoner.

The court decided that if Fox intended to straighten up he would be able to do it at the expense of the Fayette county taxpayers.

Women's New Federal Prison To Be Fussy About Members

By CHARLES P. STEWART

Washington Correspondent for Central Press and New Castle News

WASHINGTON, March 6.—None but thoroughly respectable women will be admitted to the federal government's new prison for convicts of their sex, at Alderson, W. Va.

The membership there will also be strictly limited.

After the prescribed maximum of 500 guests—shall we call them?—has been reached, subsequent applicants will have to go on the Alderson waiting list, as less exclusive prisons.

The justice department has warned federal judges throughout the country to be mighty particular in nominating candidates for the select atmosphere for Alderson—to look them up in the Social Register or something. Not that the department suggests precisely that method of determining their qualifications, but in one way or another it must be made abundantly clear that they are perfect ladies.

Otherwise the departmental superintendent of persons reserves the right to expel them. Or rather, as

the official announcement more fully expresses it, they will be "transferred."

No applicant is eligible at Alderson for less than a year's entertainment.

The Alderson (W. Va.) Industrial Institution for Women is the official title of the new community, the government is founding. "But it is a prison," as explained at the justice department.

Dr. Mary B. Harris, a widely-known penologist, is in charge of it.

I have met Dr. Harris. A very earnest, kindly woman, reform is the whole purpose of her treatment of her charges. However, she has no disposition to waste her time in a vain attempt to reform incorrigibles. Alderson is a well-kept prison of comfortable cottages, with a good school, a hospital, various industrial plants and facilities for training in all sorts of garden and farm work. Dr. Harris aims to make her captives competent home keepers, or otherwise self-supporting.

Probably it is as pleasant a place as a prison can be made, but obviously its inmates must be of an amenable type—or it could not hold them long.

According to information available at the justice department, a great many women of this type are doing time for federal law violations—"really nice women," as one of the department's prison officials expressed it to me, who nevertheless have made

serious enough slips to land them behind penitentiary bars.

Which surprised me—really nice women in penitentiaries!

"More than formerly?" I asked.

"Oh, my! yes," said the official.

"You see," he explained, "we have so many more laws than we did."

"What do these nice women do," I inquired, "to be sentenced to the penitentiary?"

"Well," replied the official, "there are the women bootleggers."

"There are also the women violators of the anti-narcotic laws."

"These make up about 90 per cent of all the federal government's women prisoners."

"The occasional woman convicted of counterfeiting, or as a professional smuggler, or for white slavery is likelier to be an irreclaimable criminal—not so respectable."

"But many a woman bootlegger is ideal for Alderson."

Dr. Matthews May Receive Call To Philadelphia Church

PHILADELPHIA, Pa., March 6.—Dr. Mark A. Matthews, pastor of the largest Presbyterian church in the country, the First Presbyterian church of Seattle, Wash., is being seriously considered for the vacant pulpit of the Bethany Presbyterian church.

Twenty-second and Bainbridge streets. A call from that congregation will no doubt be issued if such action would be well received by Dr. Matthews.

It is learned, Dr. Matthews preached at both services at Bethany Sunday. The pulpit has been vacant since the resignation of Dr. A. Gordon MacLennan a year ago.

Bethany church was founded by the late John Wamaker; was fostered by him throughout his life, and following his death, by his son, the late Rodman Wamaker. It is itself one of the largest Presbyterian congregations in the United States with a membership of nearly 3000.

This is the season of the year when a fellow never knows where the next step will take him.—The Muskegon Chronicle.

No More Gas In Stomach and Bowels

If you wish to be permanently relieved of gas in stomach and bowels, take Baileys' Gas Tablets, which are prepared especially for stomach gas and all the bad effects resulting from gas pressure.

The empty, gnawing feeling at the pit of the stomach will disappear; the anxious, nervous feeling with heart palpitation will vanish, and you will again be able to take a deep breath without discomfort.

That drowsy, sleepy feeling after dinner will be replaced by a desire for entertainment. Bloating will cease. Your limbs, arms and fingers will no longer feel cold and "go to sleep" because Baileys' Gas Tablets prevent gas from interfering with the circulation. Four weeks of argument over the merits of "La Belle Ferroniere," upper right, was not enough to convince a New York jury whether or not the painting is real as alleged by Mrs. Hahn, lower right, of Kansas City, or a copy of the Louvre painting as alleged by Sir Joseph Duveen, left. Mrs. Hahn was suing Sir Duveen alleging his statements that her prized possession was not real work of Da Vinci had cost her the chance to sell the painting to a Kansas museum.

Will The Earth Be Flooded Again?

By S. S. MYERS

I notice that a certain writer, in a widely read magazine, is becoming hysterical over the fear that Commander Byrd may find the Antarctic ice cap melting. He goes on to say that the ice cap, which is 1,800 feet thick and covers 5,000,000 square miles and contains some ten quadrillion tons of ice and snow—a locked up deluge so vast that if it should melt it would raise the levels of the oceans of the world 50 to 100 feet, and among other disasters, drown out New York, London and every other seaboard city.

He claims that a 50-foot rise in the oceans which the Antarctic flood would produce would not only put every seaport under water but much of the world's most valuable land and make the maps look as if they belonged to another planet. Holland and many large islands would be blotted out entirely and salt water would invade the continents in all directions.

The writer seems to have overlooked the fact that ice is expanded water and much greater in bulk than when in the liquid form. But even at that, if the ice in the Antarctic regions should melt rapidly it would, no doubt, tend to raise the level of the oceans considerably. But that is not likely to happen. By calculating from the geological viewpoint only and leaving out the astronomical side of it he is overlooking some very important facts.

Instead of the ice melting in the Antarctic regions it is accumulating, while it is decreasing in the Arctic regions. The Iceberg Expedition of the United States coast guard recently reported that things seem to be warming up in the Arctic regions and that the northern ice cap is melting. As the snow and ice decrease in the northern hemisphere they increase in the southern hemisphere. There is nearly twice as much ice now at the bottom of the world as there is at the top, and these conditions will continue to increase through the centuries to come until the southern half of the earth will be largely covered with ice while the northern half will be enjoying almost perpetual summer with Greenland and the Arctic regions covered with flowers, orchards and grain fields. But that time is a long way off.

There are two kinds of winter, viz: the annual winter with which we are all familiar, and the astronomical winter which is brought about by the precession of the equinoxes—that is, the shifting of the equinoctial points along the line of the elliptic from east to west. But these changes are so slow that they are scarcely noticeable in a thousand years, nevertheless they are going on.

We are living in what astronomers call an interglacial period. They calculate that the last glacial period began to recede about 50,000 years ago and disappeared 25,000 years ago, although the remains of it still linger in the high mountain regions and in the far north.

Another thing, this writer seems to think that the ice ages occur simultaneously in both the northern and southern hemispheres. How he got that idea I am at a loss to understand. The conditions are exactly opposite in the two hemispheres. They have summer in the southern hemisphere while we have winter north of the equator, and vice versa. The northern hemisphere is 3,000,000 miles nearer the sun now in winter, while the southern hemisphere is 3,000,000 miles farther away from the sun during the southern winter. Consequently south of the equator it is growing colder and colder, while north of the equator it is growing warmer. But, as I said before, the change is too slow to be noticed in one's lifetime. And there are many fluctuations. Some winters may be colder than others. For instance, the temperature of the present winter is considerably below normal on the average because of the vast amount of volcanic dust in the upper atmosphere which obstructs much of the sun's heat, and which may cause us to have a late spring and a cool summer. However, that is only conjecture; it depends on how long it will take the sun's rays and the rain to precipitate the dust. But, on the whole, northern winters are growing shorter and warmer.

In the meantime the melting ice in the Arctic regions is balanced by the accumulating ice in the south, and the oceans of the earth will scarcely be affected. There will be no flood. So the writer of the article referred to above need not be alarmed.

Jailed Five Years In Husband Death

Adams County Woman De-

Accidentally In
Tussle

Dying Man Exonerated Wife,
But Prosecutor Charged
False Testimony

GETTYSBURG, Pa., March 6.—The last chapter in a domestic tragedy which had its beginning on July 10, when Mrs. Helen W. Eiker, 18 years old, mother of a three-year-old boy, fatally shot her husband, Percy D. Eiker, was written in the Adams county court, when Judge D. P. McPherson sentenced the young woman to serve not less than five nor more than ten years imprisonment in the Eastern penitentiary.

Before imposing sentence, Judge McPherson handed down a decision refusing the convicted woman a new trial which had been asked after her conviction of second degree murder on August 20.

The young woman's defense was that her husband was "accidentally shot while Eiker was endeavoring to take a shotgun from her after, she testified, she shot once through the head of the bird on which he lay asleep to frighten him and to dissuade him from running around with other women."

District Attorney John P. Butt argued before the jury that the shooting was "wilful, deliberate and premeditated" and that Mrs. Eiker did not shoot through the head of the bird with the first shot, as she testi-

hed, but with a second shot, the first load having lodged in Eiker's chest. Eiker died at the Warner hospital here a few hours after the shooting, maintaining to the end that he had shot himself "accidentally."

There were no eye witnesses to the shooting, which occurred at the home of Eiker's parents.

Mr. and Mrs. John Eiker, brother and sister-in-law of the dead man, were the only other persons in the house at the time. The former said he was awakened from sleep by the shots.

**Curriculum Is
To Be Altered**

Grove City Planning To Intro-
duce Changes In Curriculum
In Fall

GROVE CITY, Pa., March 6.—An altered curriculum for Grove City college, to conform with the trend of modern schools toward specialization in the training of teachers, has been adopted by the faculty. The new plan will apply with the opening of the fall term of 1929, but all students will not be required to comply until after 1931.

Under the new curriculum, each student will be required to complete 24 semester hours beyond the work of the freshman year in his major subject. It will permit a student to obtain a more complete understanding and knowledge of the particular field which he selected as his major. The work of the freshman year will, as nearly as possible, be made practically the same for all students.

Grove City college has an enviable record for the number of teachers it has prepared, and the degree of success attained by its graduates in the teaching profession. With the standards of certification to be raised, it will become increasingly necessary for a teacher to be a specialist in his field. President Ketter and the faculty have had the details of the new curriculum under consideration for some time, and the result is the completion of a course which will add greatly to the prestige of the local institution.

Students now in college may transfer to the new curriculum if they are able to meet its requirements. After 1931 all students will be held to the new plan.

Under the new plan, the degree of Bachelor of Literature has been eliminated. A separate degree will no longer be granted in chemical engineering, but the course will be retained as a major. There has been no change in the course for commercial teachers, or in the music courses.

PITTSBURGH, Pa., March 6.—Federal Judge J. A. Gibson has refused a new trial to the Fidelity & Casualty company, of New York, and the National Life association of Des Moines, Ia., against whom Mrs. Lenora Howe, of Erie, recently won verdicts totalling \$65,000 as insurance in the death of her husband.

Howe was found dead, his body burned in an auto wreck near Erie. The defendant companies contended that it had not been proved he died an accidental death.

**Broadway Plays For
Paris Entertainment**

(International News Service)
PARIS, March 6.—The French public will soon be able to see all the Broadway hits, if a well-known New York play-producer can carry out his plan to establish a French-American theatre within the coming year.

Very enthusiastic over the recent production of the French version of "The Trial of Mary Dugan," Al Woods now feels that the time has come to produce all plays that appeal to American audiences in Paris.

"The Shanghai Gesture" will probably be the next play to be presented in Paris and may be the opening attraction of the Paris theatre for American productions.

**Seize Million
Worth Of Drugs**

(International News Service)
NEW YORK, March 6.—Drugs valued at \$1,000,000 and important documentary information regarding the activities of the late Arnold Rothstein have been seized by Federal authorities.

At the same time four men, said to be connected with the largest dope distributing ring in the country, were arrested. The seizure was made by Federal officers just as the drugs were being delivered to the office of an express company for shipment to various parts of the country.

Repairing Tire**

(International News Service)
GREENSBURG, Pa., March 6.—Donald Jayne, 24, Painesville, O., salesman in a hospital here with a bullet in his right leg, told State Police, they say, that he was held up, shot and robbed of \$40, near Wilkensburg when he stopped to repair a tire.

He said he was enroute from Pittsburgh to Johnstown. Police said they would question him further.

OLD AGE PENSION.
HARRISBURG, March 6.—The old age pension question, killed last year in the House, again became an issue, when Senator Harris, Allegheny, introduced a resolution proposing a constitutional amendment which would permit such payments.

Air Code Covers Many Angles Of Plane Operation

HARRISBURG, March 6.—The way is being cleared to permit the law to "go up in the air."

Under the new aeronautics code the proverbial "long arm of the law" will be prepared to reach far into the "billable blue."

The code defines clearly the jurisdiction of the State Aeronautics Commission over crimes committed in Pennsylvania, with or in aircraft. The code also gives the Commission jurisdiction over contracts entered into in aircraft while in flight over Pennsylvania.

tors in both in flying over private land and making landings.

The bills give the Aeronautics Commission power to license aircraft, airports, landing fields and air navigation facilities which includes beacons and lights.

A code of procedure for the control and licensing of commercial flying is outlined. Under the Aeronautics Commission supervises and regulates the safety and adequacy of airports, airplanes and airports in commercial flying. Commercial flyers will be required to obtain a certificate of safety from the commission.

In cases where commercial flyers are held to be common carriers the Aeronautics Commission will certify the application to the Pennsylvania Public Service Commission for its approval.

Operation of aircraft anywhere in Pennsylvania without a license would be unlawful if the code is approved. Where ships and pilots hold Federal licenses, issued by the Department of Commerce and used in intra-state flying, Pennsylvania licenses will be issued without additional inspection or examination.

In defining the legal status of air navigation the measures provide that when flights are at sufficient height and made without interference to the use of the soil beneath they can not be construed as trespass.

Landing of aircraft on lands or water of another, without his consent, is forbidden except in cases of forced landings. If damages are caused by forced landings, the owners or operator of the craft is liable.

The owner or operator of an aircraft is liable for damages to persons or property or lands beneath caused by ascent, descent or flight or in the dropping of any object. An injured person, or persons, has a lien on the craft causing injury to the extent of the injury or damage.

The measures also authorize and empower counties, cities, boroughs and townships, alone or jointly with each other to establish, maintain and operate airports and landing fields.

New Recipe for Coloring Gray Hair

By LOIS PAGE

One of the questions most frequently asked me is: "What shall I do for my gray hair?" Unhesitatingly I recommend that tried and proven recipe of sage tea and sulphur. A brew of common garden sage with sulphur and alcohol added, makes the best hair restorer I know of.

You can either prepare the mixture yourself at home, or as most people prefer to do, buy it already prepared and ready to use. Wyeth's Sage & Sulphur is the name of the ready-to-use preparation and since all druggists sell it at 75c a bottle, there is really no need of going to the bother of making it yourself.

You simply moisten a comb or soft brush with it, and draw it through the hair, one strand at a time. One application banishes the gray and one or two more completely restores your gray, faded or streaked hair to its original color. There is no hard, dyed look. The whole effect is one of perfect naturalness. Thousands of men and women use this preparation with no one suspecting it.

VOLANT

HEAR INAUGURATION

Many here listened in to the inauguration ceremonies in Washington on Monday. A radio was installed in Wilkin's store where a number heard the entire program. Another radio was installed in the public school where the students enjoyed also one of the biggest days in history. And a number enjoyed the addresses listening to the several radios in their own homes.

ENDED STOMACH TROUBLE OF 30 YEARS' DURATION

Man Uses Famous Ten Herbs With Amazing and Far-Reaching Results

The real test for any medicine is what it will do in cases that have stubbornly resisted many other medicines over a long period of years. That Ten Herbs, the famous new natural medicine, often is at its best in just such instances, is shown by the

MR. D. M. GOLDINGER

experience of Mr. Daniel M. Goldinger, East Butler, Pa., who recently made the following statement, according to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington street, this city, where he is daily demonstrating this successful preparation:

"I had been troubled with my stomach ever since I left the United States Army, 30 years ago. My appetite was poor, and I was bothered with gas and bloating. There was a burning feeling in my stomach, and food did not give me much strength. My stomach would hurt for an hour after a meal, and I was also troubled with heart burn. I was so badly constipated that I had to take a laxative almost every night. Nervous spells came on me—I would jerk and twitch in my sleep at night, and could not rest like I should. In the morning I would feel all tired out and out of sorts. Headaches bothered me. I had pains across my back and rheumatism in my hip—when I sat down awhile I could hardly get on my feet again. There were puffs around my eyes, and at times my vision would be blurred. My head would be stopped up in the morning and I would cough up a lot of mucus. My muscles and joints got sore and stiff, and I had a general run-down feeling."

"I read about Ten Herbs, and decided to give your medicine a trial. Since taking it, I am free of gas, bloating, heartburn and that burning sensation and other distress in my stomach. My tongue is no longer coated, and I have got back my strength. My nerves are in fine condition. I sleep soundly all through the night and feel good when I get up in the morning. I am rid of headaches, and the pains have left my back and hip. My eyes are in good condition—no more puffs around them or blurred vision. Constipation has been completely ended, after all these years—I need any more laxatives. My head is not stopped up in the morning, and I do not cough any more. My muscles and joints do not get sore and stiff like they used to, and I always feel fine."

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington street, this city, where he is daily meeting the public and explaining the merits of this medicine.

Tires for the new Ford are specially made to give long wear

WHEN the new Ford was designed, it was immediately apparent that a new tire would have to be made to match the car's performance. It was distinctly a new problem, for here was a car with quicker acceleration, greater speed and more braking efficiency than any car of similar size or weight.

So that every Ford owner might be assured of maximum tire mileage at the lowest cost, the Ford Motor Company devoted many months to research and experiment in conjunction with the leading tire manufacturers.

As a result, certain definite specifications were developed for tires for the new Ford. These specify cords of certain strength and texture, a large volume of tread and side-wall rubber, sturdy non-skid design, and reinforced plies for protection against bruise breaks—all the strong features of construction formerly considered for only the largest tires.

Great care also was taken to secure the best riding qualities in connection with the transverse springs and Houdaille shock absorbers used on the new Ford. Though the Ford tires are 30 x 4.50 in size, they have the resiliency and air space of much larger tires because of the drop center rim of the steel spoke wheels.

Another unusual feature of the new Ford tires is the provision for balancing the tire assembly. Every tire is marked on the sidewall with a red spot to show where the valve stem should be when the tube is inserted. This is just a little thing, but it assures a uniformly high standard of tire performance at all speeds.

For best results, the tires on the new Ford should be kept inflated to an air pressure of 35 pounds and checked regularly to insure this pressure all the time. This is important. Low inflation breaks down the side-walls of a tire. By causing overheating, it also destroys the rubber that acts as an insulation, with consequent separation of the cord.

At the end of each 5000 miles, when you have the front wheels packed with grease, it is a good plan to have the wheel alignment checked. This will prevent the possibility of premature wear of the tires.

When punctures come, as they will with any tire, you will find the Ford dealer particularly well-equipped to make repairs quickly and at small cost. See him, too, for replacements. Then you will be sure of getting tires built specially for the Ford car according to definite Ford specifications.

Somebody Breaks
Road Fence Daily

Some one breaks one of the highway guard rails and cables daily, states H. W. Lightner, local maintenance superintendent of the state highway department.

According to Mr. Lightner, there is a fence of this sort to fix every day some where in the district. Each and every day it is some employee's job to hustle out and repair or build anew some part of a fence that a motorist has crashed into and broken.

There are also a great number of the roadside signs broken, states the local superintendent.

Mr. Colvin B. Brown, manager of the commercial organization department, Chamber of Commerce of the United States of America, Washington, D. C., has had a wide experience in commercial organization management.

Mr. Brown is probably the most outstanding authority on commercial organization affairs in the United States. He follows closely developments in this field in every section of the country, travelling every year many thousands of miles and his counsel is sought by chambers of commerce in the small towns as well as in the largest cities.

He expresses the conviction, based on his wide experience, that the commercial organization or chamber of commerce movement is emerging from its formative stage and is constantly developing along more practical lines.

The Chamber of Commerce of the United States, which Mr. Brown represents as Manager of the Commercial Organization Department, is the largest organization of its kind in the world. It is a federation of more than fifteen hundred commercial organizations and trade associations with an underlying membership of more than 800,000 individual business men.

By GROVE PATTERSON

THE EASIEST WAY.

A great deal has been said and written about "the easiest way." We are criticized and condemned for taking the easiest way. The inference is that we are doing something we should not do because we haven't the courage to do better. The fact is that the easiest way is the best way. If we are perfectly honest, have nothing to conceal, and do not try to cheat or fool anybody, we find life much simpler and easier than when we live in accordance with any other policy. One who does not deceive, avoids complications.

CAREFUL READING.

If you are fairly industrious and read as much as one book every week, you will read only a little more than 500 books in ten years. Every year there are thousands of new ones printed. You might as well make up your mind you can't read them all. You can't read all the good among the older ones and not all the good among the new ones. So it's better to be careful. Pick and choose. Wait. If you have an evening for reading in these busy days, select the book that is likely to teach you the most about life and people. Some books of fiction have great value. More of them have not. Biography is better—perhaps best of all.

A FLYING PUBLISHER.

Van Lear Black, publisher of the Baltimore Sun, flies about the world, from country to country, in large airplanes. He has just been going from London to South Africa. He is one of the adventurous spirits who is adding to the world's knowledge and discovering the ever new possibilities of air travel. As in the

ages of the past the rest of us are indebted to the pioneers.

"BE SOMEBODY."

It is said that the last words of Abraham Lincoln's mother were these: "Be somebody, Abe."

There is no better advice that comes from a mother or a father to a son or daughter. It is true that the ambitious make mistakes, but without ambition there is no life worth living. If you can instill within your child the desire to "be somebody," you have started him on his way.

Red Cross Nurse
Compiles Report

Report of the American Red Cross nurse for February reveals that 76 visits were made during that period by Miss Kathryn Hite, the Lawrence county chapter nurse.

Other details of the report were that 13 cases were brought forward from January, there were nine new cases, one case was readmitted, 13 cases were dismissed and 10 were carried over into the present month.

Three baby clinics were conducted during the month and aid was given in connection with the state extension clinic for heart, chest and cancer on February 25.

The nurse also aided in giving toxin anti-toxin treatments to the pupils of the Mt. Jackson school and secured a tonsil operation for one child.

Taxi Driver Finds
Ninety Dollar Roll;
Returns It To Owner

Is the old, old story of honesty the best course and its the same old story, that most people are honest, when it comes to the test.

The other night Louis Perotta, driver for the Campbell Taxi Service, had a man passenger for the Seventh ward station of the Baltimore and Ohio Railroad.

The man shortly after his arrival at the station found that he had lost his roll of something like \$90. He had not the slightest idea of where he had lost it. He was without funds to continue on his way.

In the meantime, Perotta returned to the headquarters of the taxi company and found to his astonishment on getting out of the machine, a roll of money containing \$90 on the running board of the machine, where it had evidently been dropped by the passenger at Mahoningtown and had remained there all the way back to the office of the company.

Perotta at once got in touch with the B. & O. Station and located his man and returned the money to him. The man rewarded Perotta for his efforts.

tenant of G.

First Sergeant Henry Applegate to
second lieutenant of H, vice Jay re-
signed, provided the company has
on its roll the requisite number of
men.

As soon as M. reaches the proper

number promote the first sergeant to

—Writes To Son—

Cincinnati, April (no date) 1864.

My dear Son:

Yours of the 26th received. Tell
Col. Dawson to send forward Bard's
name to the governor for promotion
via Bauman. The colonel can either
make D. Taylor sergeant major or
the orderly sergeant of Co. F which
ever he thinks best. I want Taylor
to have the next vacant lieutenantcy
in his company either from the ser-
geant majority or by direct promo-
tion. Let the colonel do as seems
wisest.

Now is it with Sergeant Douthett
of D? Has he re-enlisted? Tell Col.
Dawson to address a note to the ad-
jutant general through the proper
channel inquiring as to the disposi-
tion of Ashton's case.

The 17th and 27th West Vols. start-
ed for Annapolis today. The 79th
N. Y. and 26th 'Mop' start tomorrow
morning and most probably the 20th
Michigan and perhaps the 2d division.

I hope to have everything started
in a few days and be ready to join
you. I will try and find a mess
chest and the stools has been sent
forward with some of the baggage of
the regiment.

I have had no letter from home
since I came here.

Affectionately,
George—Your Father, Leasure.

Forest Cutting Aid Herds Of State Deer

Animals Near Starvation Last
Winter Will Have Tender
Food Soon

LEWISTOWN, Pa., March 6.—T. C.
Harbeson, district forester, with head-
quarters at Millroy, said today that
"forest improvement cuttings" would
be the salvation of the deer in this
section. The "cuttings" are made on
trees of twenty-five years of age, and
twenty to forty feet high, to cull the
timber, cut away the useless species
and stunted or abnormal growths.
This brings the tender cuttings, buds
and other wholesome food to the deer
in the winter time.

Last year pasture for the deer was
mighty thin, and in some sections of
the State they were starving for
twigs, buds and the grapevine which
seems an essential for wild life. Wild
vines, chiefly the grape of the "fox"
and "chicken" varieties, abound in
these cuttings where trimming out
permits the sunlight to get at the
roots. The "chicken" grape is good
only after heavy frosts, which ripen
its fruit like that of the persimmon,
and are relished by wild turkeys and
birds. Bears will travel long distances
to obtain them. The vine when in
normal strength carries a sap that
is as sweet as the sugar water of the
maple tree, and prized by deer and
bear.

Japan Not To Favor Suffrage For Woman

(International News Service)
TOKYO, March 6.—Japan's major
political party, the Seiyukai, is ex-
pected to oppose introduction of the
bill favoring women's suffrage in Ja-
pan on the grounds that women of
the nation are not yet prepared for
the voting privilege.

Keikichi Mochizuki, Minister of
Home Affairs, states that, although
the government party is in favor of
granting the privilege to women in
principle the time for application is
yet too early, as the great mass of
women are not ready for the great
responsibilities that will rest upon
them.

Several other bills concerning
amendments to existing election laws
are expected to be introduced.

Sargent Approves Parole For Miller

(International News Service)
WASHINGTON, March 6.—Attor-
ney General Sargent has approved
the parole of Thomas W. Miller, for-
mer alien property custodian, sen-
tenced to Atlanta prison, charged with
conspiracy to defraud the government
in connection with manipulation of
property seized from Germany at
the outbreak of the war.
Miller will be paroled May 7.

Independent Weather Prophet Scorned By Government Men

By CHARLES P. STEWART
Washington Correspondent of Cen-
tral Press and New Castle News

WASHINGTON, March 6.—The
government's weather service dis-
putes the validity of Herbert Janvris
Brown's seasonal weather forecasts.
They are, utterly scientific and sig-
nify nothing whatever, according to
the weather bureau.

The facts remains that Prophet
Brown continues to make money
selling his predictions to an increas-
ing number of hard-headed business
folk who rarely let go of cold cash
for anything else than what they
consider value received, and who cer-
tainly do not keep it up year after
year on any other basis, anyway.

It surely seems as if even an un-
scientific business man ought to be
able to estimate a weather forecast's
reliability by checking it up with
the subsequent actual weather. From
the very fact that Prophet Brown
keeps his clients, it looks to me as if
there must be something in his pre-
dictions.

Meteorological science's hostility to
Prophet Brown appear to me due, in
large part, to the circumstance that
he broke into weather prophesy rather
or uncereemoniously.

Originally Herbert was not a sci-
entist, but a newspaper man.

From that he graduated into the
business of furnishing confidential
Washington information to a num-
ber of corporations whose plans are
largely influenced by developments in
the capital. Weather considerations
also play an important part in their
calculations. The weather bureau
refused to make forecasts as far in
advance as Brown's customers want-
ed them, which drove him into the
job of making his own.

no weather bureaucrat ever does, ex-
cept as a passenger.

Herbert Brown's latest proposal
looks towards a regulation of the
weather by an attack on polar ice.

"Crack it loose," he urges, "from
the edges of the great floes in the
far north and south, set it adrift in
the ocean currents, and it inevitably
will affect climatic conditions."

The cost? Not more, Brown an-
swers, than the cost of a fleet of bat-
tleships.

Seafaring men agree that icebergs
affect weather. How far inland may
be open to question. Brown be-
lieves whole continental areas can be
affected.

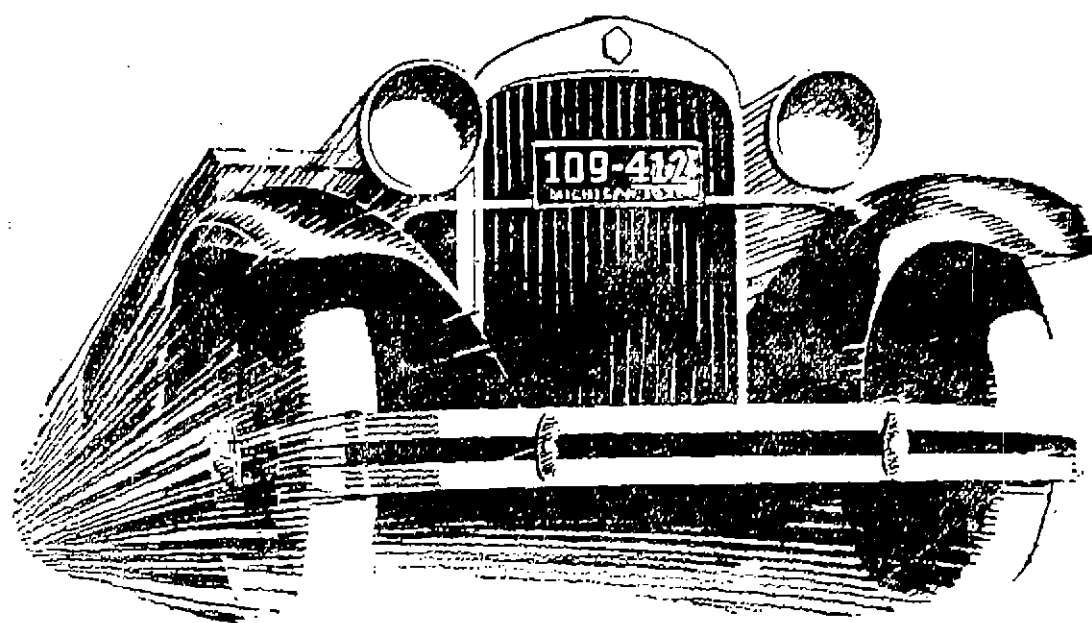

There is nothing small about his
scheme. He mentions ice fields six
to eight feet thick and one to six
thousand miles in extent. It is not
too large an order, he says, for mod-
ern engineering.

They say at the navy department
that it isn't an impossibility, but
what it would do to the weather sci-
ence has not had time yet to discuss
fully.

SMART COAT IS FIRST NECESSITY FOR THE EASTER PARADE

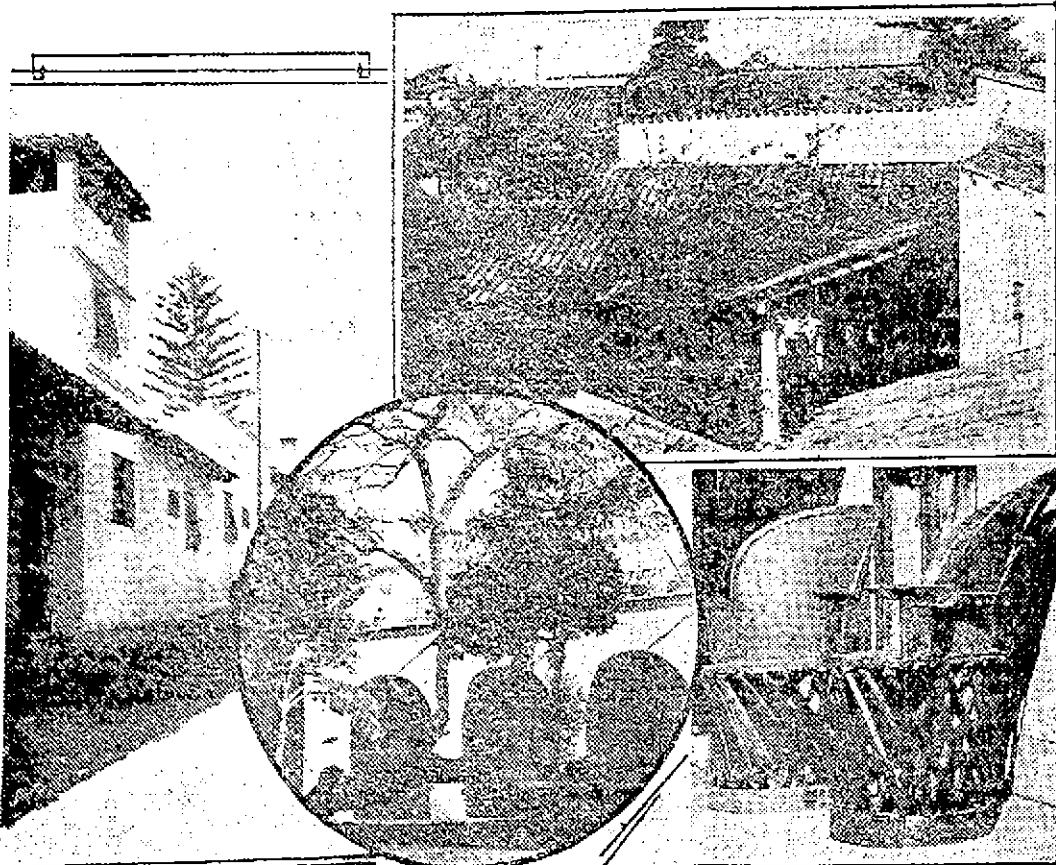

With Easter early this year, milady's first care should be to provide herself with a smart coat for the inevitable parade. Pictured are a number of models that are straight and slim of line, and very distinctive. Extreme left, an imported fabric with Queen Anne collar; second, conventionalized border design used for trimming, with a fold at each side held by a belt of self material. Kid fox collars the model in the center of the picture, with cuffs of the gauntlet type trimmed with buttons. The material is imported. The fourth model shows a new treatment in fabric. The shaded sections of the imported, hand-woven tweed alternate in vertical stripes. The last one is practically an "all-occasion" coat, because of the flattering silhouette and the weather-proof fabric. The scarf collar and belt give the tailored effect, and the fur cuffs break the severity of the style.

Larger State Allowance
Asked For Tubercular
Cattle Ordered Killed

READING, Pa., March 6.—Resolutions opposing any further increase in gasoline tax, urging that one-tenth of the present gasoline tax be turned over to township for road building purposes, favoring a change in the system under which the State pays township road work rewards; approving the change in the gasoline tax law, collecting the tax of the distributor instead of the retailers; and approving the national grange position on the tariff, were adopted at the quarterly session of the Berks grange, according to announcements here today.

Delegates from the fifteen granges in the district declared against a proposed change in location in the Berks courthouse.

Robert B. Dengler, of Birdsboro, a member of the Assembly, was indorsed in his efforts to have the State make a larger allowance for each cow killed by the State after condemnation as tubercular.

Wilmington

(Special To The News)

NEW WILMINGTON, Pa., March 6.—The students of the local high school held an assembly in the school here this morning following which a pep meeting was held. The pep meeting was conducted by Charles Criss and Billy and Becky Wallace.

Those who took part in the assembly program were Richard Davis, Perry Klumpp, Lloyd Davis, Arthur Byler, William May, Nelson Greer, Millard Martin, Mary Hammond, Helen Ropkowitz and Sara Dinsmore. The program committee is composed of Thomas Hutchinson, Willis McGill, Richard Davis and Thomas Rogers.

A regular monthly social meeting was held by the Happy Hour society of the local Presbyterian church at the home of Mrs. W. J. Conway yesterday evening. As joint hostesses with Mrs. Conway were Mrs. W. Hartwell, Mrs. W. I. Davidson and Mrs. Mary McKee.

In the regular meeting hour previous to the social entertainment Miss Maud Chapin led the devotionals and Mrs. Wilson conducted the discussion on the topic "Foreigners in America."

A new organization in the local U. P. church is the junior choir. It held its first regular meeting last Monday night.

Persistence in the thought that spring is here seems to be the motto of a blue jay which has been singing a surprisingly beautiful song from the top of a maple tree on Waugh avenue here nearly every morning for the past few days. Robins have also been seen visiting the college town this spring.

MONEY OUT

A man went to Canada and took a high-priced wolfhound with him in order to get rich by catching wolves, on which a high bounty was being paid. A wolf was seen, and the hound went after him.

The owner of the dog and his party followed for some miles without getting sight of either wolf or hound.

Finally they came upon a man chopping wood.

"Did you see a wolf and dog pass here?" the owner asked.

"Yes, they just went by."

"How was the race?"

"Pretty hot. But the dog was a little ahead."

Sleep-Sleep

One good night of sleep will go a long way to repair the effects of time and disease. Make certain that your sleep is sound. Dr. Williams' Pink Pills for Pale People is a complete, safe, reliable remedy for sleeplessness. It does not contain alcohol, chloroform or any harmful or habit-forming drug. It acts directly on the nervous system—causes sleep—relieves nerve pain. Sold at drug stores at \$1.00 a bottle, but if you will send your name and address with 10 cents for packing to J. W. Brant, Dept. 2, Albany, N. Y., they will send you a large sample bottle free. It works wonders.

Alice
White

Saves dress and
film goes on!

HOLLYWOOD, CAL.—Alice White's ingenuity recently saved a temporary suspension of production on her new film—and a loss of thousands of dollars an hour to First National studios.

In the midst of a ballroom scene, Miss White spilled punch down the front of her chiffon dancing frock. Consternation reigned—then Alice White herself saved the day.

Calling her maid, she instructed her to wash the dress in Lux. In 30 minutes the dress, dried quickly by electric fans, looked like new!

"Every girl knows how marvelous her frocks look cleansed in Lux," Miss White said—"and our own wardrobe department uses Lux regularly. Tests prove clothes can be kept gorgeous new looking even much longer with Lux. Today's incident merely illustrates dramatically the marvelous work Lux does in double-quick time."

"LENT AND MY CHURCH"

Memory Verse for Wednesday
"So we, being many, are one body in Christ, and every one members one to another" (Romans 12:5)
(Read: Romans 21:1 to 15)

MEDITATION.—A church united and harmonious is a wholesome support to the religious life. It incorporates us in itself, interweaving our several lives in its own fabric. These brethren in my church are a part of myself. In their faults as in their virtues I share. If I am critical and censorious, it is myself that I am attacking. My own strength, my own shining, I am sharing. We are one body and if one member suffers, all the members suffer with it. If my church is torn and weakened by any dissension I am the loser. In patience, forbearance, yielding my will and opinion, I am contributing to my own good. So, if occasion arises, let me have the beautiful words of the peacemaker.

PRAYER.—O God who are love, grant to Thy children to bear one another's burdens in perfect good will that Thy peace which passes understanding may keep our hearts and minds in Christ Jesus our Lord. Amen.

Canadians Move Whole Town Five Miles To Railroad

WINNIPEG, March 6.—An entire town of Waterhole, Alta., was moved five miles to a new location in less than two months.

When the new railway was extended in that area the citizens of Waterhole found they were five miles from the steel. The town council had conference and decided that if this railway would not come to them, they would go to the railway, and in consequence the whole town, including two hotels, stores, etc. was moved to a point on the railroad and the town renamed Fairview.

Boy Says Man Made Him Write Death Letter

Fayette Resident Charged With
Attempt To Get \$5,000
By Blackmail

UNIONTOWN, Pa., March 6.—How he was forced to write "death" letters to former Justice of the Peace N. J. Bielewens of Republic was told in Fayette court by John Chernio, 12 years old, also of Republic, in the trial of Leonard Miller, charged with blackmail.

The Chernio lad said that Miller, who boards at the Chernio home, forced him to write letters demanding \$5,000. The first letter, written on Christmas, directed that money be placed along the street car track between Republic and Cardale, while the second demanded the deposit of the money at the end of Van Kirk street.

Both letters were written in red ink and signed "The Secretary of Death."

Not what you pay but what you get . . .

De Soto Six is comparable only with costlier cars. It is the kind of car that can be proudly owned in any company.

De Soto Six is so unmistakably different from anything that is expected in a low-priced six. It offers so much more in beauty, in smartness and in gracious harmonies of line and color. Even at rest it has an air of alert and vigorous daring that tells you it will bear you gallantly anywhere—safely, comfortably, thrillingly.

And, De Soto's looks do not belie their promise. Nowhere at anything like the price is there such amazingly restful

riding—such prompt acceleration—such supple response—such ample power—such roomy comfort.

Compare De Soto Six, feature for feature, with any car in its price field. Ask those who own a De Soto their candid opinion of its merits.

Boy Says Man Made Him Write Death Letter

Fayette Resident Charged With
Attempt To Get \$5,000
By Blackmail

UNIONTOWN, Pa., March 6.—How he was forced to write "death" letters to former Justice of the Peace N. J. Bielewens of Republic was told in Fayette court by John Chernio, 12 years old, also of Republic, in the trial of Leonard Miller, charged with blackmail.

The Chernio lad said that Miller, who boards at the Chernio home, forced him to write letters demanding \$5,000. The first letter, written on Christmas, directed that money be placed along the street car track between Republic and Cardale, while the second demanded the deposit of the money at the end of Van Kirk street.

Both letters were written in red ink and signed "The Secretary of Death."

Affirmative Team Again Wins Debate

Ellwood City High School Debaters Defeat Team From Beaver High

ELLWOOD CITY, March 6.—Walter A. Von, Miss Eva Perella and John Paslin, who are the local affirmative debating team of the Ellwood City high school, won their fourth victory Tuesday evening when they "argued down" the negative team from Beaver in a contest in the Methodist church.

The question under discussion was: "Resolved that congress should create a department of education in the president's cabinet."

Paul Lyda is coaching the local team, assisted by Miss Davidson also of the faculty.

The affirmative team has not lost a debate this season, and on Friday, March 15, will meet New Brighton's negative team, holding the same record so far. The tilt promises interesting results.

Tuesday night the affirmative team won a unanimous decision from G. C. Nord, principal of the New Wilmington high school; B. K. Thacker of the George Washington junior high school of New Castle, and H. A. McCracken, professor of history of the senior high school of New Castle.

National Farm Outlook

By ARTHUR H. JENKINS
Editor The Farm Journal.
Published by Special Arrangement of
Central Press and News, New Castle.
News With The Farm Journal.

One of the things I rather expect to see shortly is an increasingly vigorous demand by farmers in many areas for a change in taxation methods.

There is nothing improper about this. But unfortunately these splendid new ideas of ours rest on an old and totally inadequate system of taxes. It is only natural, of course, that farm property should be taxed. There they lie, the broad acres, the orchards.

This subject of taxes is one of the oldest of all human concerns, and it seems as if in five thousand years of history the race should have gotten arranged to the reasonable satisfaction of everybody. But that is far from the case, alas!

We still believe, with few exceptions, that we are bearing much too heavy a tax burden, and that some other individual or class is getting by with only half the taxes he or they should be made to pay. That feeling is as old as ancient Sumeria. And the only progress we have made is that through the growth of democratic institutions we are having rather better luck than formerly in tossing the tax burden around from one class to another and back again.

When the king reigned in Asshur of Mesopotamia, the tax burden was placed firmly on the backs of the poor and helpless, and stayed there!

The trouble on the farms seems to be on analysis that we are trying to follow out some new ideas, by methods that are very old and perhaps out of date.

It is not necessary to go into the question of living standards of 1929. For everyone knows that farmers as a class rightly maintain that they are entitled to as good living conditions, as large a share of comforts and luxuries, as anyone else.

Among these, perhaps the most expensive are good education for our youth, and good roads. And such is our frame of mind, that we are to be satisfied with nothing less than the best of each. The best schools, the

Channel Tunnel Delay Is Costly

International News Service

PARIS, March 6.—Ten years delay in beginning construction of the cross-channel tunnel linking London and Paris, has cost \$50,000,000 according to estimates furnished by Yves Le Troquer, president of the French Tunnel committee and former minister of public works.

In 1918 the estimated cost was between \$32,000,000 and \$40,000,000, and today it is \$120,000,000, he said. "As soon as Britain is ready to create a tunnel company work can be started. We are organized and waiting to begin work on our side. Our plans for the project have been under development for 5 years. Paris-London travel will be reduced to 5 hours by the tunnel."

Questioned, he said that he was born in 1778, the year of the American revolution, he remembered Mohammed Ali, who massacred the Mamelukes in 1811; that when he was 40 he became a soldier. The ancient Arab retains an interest in politics and declares that the Arabs of today enjoy more rights than they did a century ago.

HIS OWN GLORIOUS MIGHTY PLAY
BY SUPER COMPANY COLUMBIA THEATRE

SPECIAL NOTE: This year's Blossom Time is the most complete and most magnificent production of the celebrated opera that has ever been on tour, built and organized expressly for appearances in the key cities in conjunction with the Franz Schubert, our hundred anniversary.

Everywhere this company has played this season it has smashed all its previous boxoffice records and the advance indications are that its tremendous popularity will be similarly enhanced in Youngstown by an unprecedented demand for seats. In view of which it is suggested that all patrons make an effort to obtain their tickets at the earliest possible moment.

The Story Of American Industry
Leather (Part Four)—The Rise Of The Shoe-Making Industry

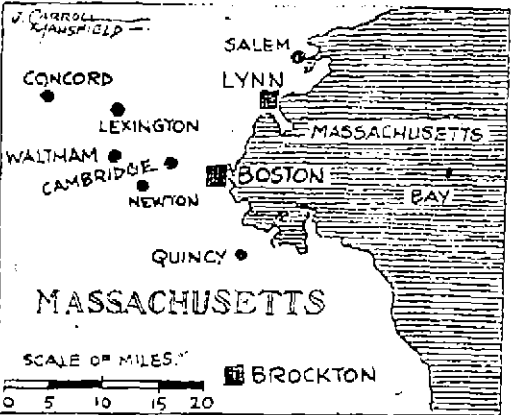

THE FIRST MAN TO ESTABLISH SHOEMAKING AS A BUSINESS WAS JOHN DAVIS, AN IMMIGRANT FROM WALES. IN 1756 DAVIS OPENED A TINY SHOP IN LYNN, MASSACHUSETTS, AND EMPLOYED SEVERAL MEN TO CUT OUT THE PARTS OF A SHOE.

THE UPPERS WERE SENT TO THE HOMES OF WOMEN LIVING IN THE NEIGHBORHOOD OF THE SHOP, WHO SEWED THEM TOGETHER BY HAND. THE MEN IN THE SHOP THEN JOINED THE UPPERS WITH THE SOLES. DAVIS SPECIALIZED IN THE MAKING OF WOMEN'S SHOES.

FOR MANY YEARS EVERY PAIR OF SHOES WAS MADE DIRECTLY TO THE MEASURE OF THE INDIVIDUAL CUSTOMER. THIS PRACTICE GAVE WAY TO THE MORE ADVANTAGEOUS METHOD OF PRODUCING "READY-MADE" SHOES IN STANDARD SIZES.

DAVIS'S PLAN PROVED HIGHLY SUCCESSFUL AND OTHER SHOEMAKERS OF LYNN FOLLOWED HIS EXAMPLE. BEFORE LONG, LYNN LED THE COUNTRY IN THE MANUFACTURING OF WOMEN'S SHOES, A LEADERSHIP THAT CITY HAS RETAINED EVER SINCE. THE CITY OF BROCKTON BECAME THE CHIEF MANUFACTURING CENTER OF MEN'S SHOES.

WESTMINSTER DEFEATS DUQUESNE 25-20

Titans Play Great Defensive Game To Upset Davies' Team

Westminster College Basketball Team Makes It Two In Row Over "Dukes"; Delahanty And O'Donovan Chased On Four Fouls Puling; Duquesne Rally In Final Minutes Of Second Half Quelled; Game Is Fast And Rough In Spots; T. Lewis Flays Brilliant Game; Stephens And Lubie Best For Duquesne; Big Crowd At Contest

By BRIGGS WALTHER.

WESTMINSTER, Pa., March 5.—The Westminster College basketball team, coached by T. Lewis, defeated the Duquesne University team, coached by Ben Davies, 25-20, in a game played at the Westminster gymnasium last night.

The game was a defensive battle for Westminster, who were led by T. Lewis, who scored 11 points. Duquesne was led by Ben Davies, who scored 10 points. The game was fast and rough in spots, with many fouls being called. Westminster won the game by a score of 25-20.

The "Dukes" led by Davies and Stephens started a well guarded rally late in the game that made things very interesting, but the Titans were equal to the occasion, and no ill effects were left. Even with the great Delahanty and the clever O'Donovan out of the game the Westminsterers looked the part of champions. The two star forwards of the offensive department were aided off the floor due to four fouls in the personal category. Koehran and W. Lewis took up the burden for the Westminsterers after the stellar forwards were chased, and the "recruits" turned in a great game. It was the fine work of "Mike" Koehran at the foul line and his field goal that gave Westminster the edge.

Five Conference Wins.

It was the final game of the year for the Duquesne coaches machine, the "Dukes," were panned for their play. The Westminster team, however, were not equal to the task. Last night's victory is the fifth of the Tri-State Conference for Westminster. Two games played by Westminster were defeats. Westminster has one more conference game.

With Tudor Lewis back in the Eastern Presbyterian league, the defensive department presented a somewhat only six field goals were accredited the Duquesne team. Westminster had ten baskets. From the foul line the "Duke" led with 5 out of 11 tries, the Westminsterers had 5 out of 8. Lewis and Phil Rice placed a "heavy price" on the field goal market, and the Duquesne team found it very hard to penetrate through a maze of blue and white clad hussies.

Titans Are Superior.

Any doubt as to the superiority of the Westminster team over the dangerous "Dukes" was erased as the Westminsterers performed in brilliant fashion. It was a basketball game that about 2500 fans will not forget for some time. The game was anything but a "pink-tea" affair, with the Westminster boys upholding their end.

Both teams played a cautious defensive game in the first half, with very little scoring done. The Duquesne team took the lead at the outset when Vernon stepped to the foul-line and sank a field goal. Delahanty made things even by catching the ball for Westminster on a pretty play from in front of the basket. Benedict and Lubie put the "Dukes" back in the lead again with two foul throws. Tudor Lewis again dead-ended the count by a fine play from the side of the court following a dribble through the Duquesne defense. Delahanty scored again on a pass from Crowell. Tudor Lewis came through with another sensational play for a basket that sent the score to 8 to 4, with fifteen minutes of the first half gone. "Babe" O'Donovan sank a bucket from the middle of

THE AUTOMOBILE BRANCH OF THE "I WOULD HAVE MADE CLUB" HOLDS A SPECIAL SESSION OUT IN THE MIDDLE OF NOWHERE BETWEEN NEARLY AND ALMOST.

Three Games At Y.M.C.A. Tonight

Gerson Jewelers To Meet Millers; Rick Motors To Play B. & O. Team Of Barberton

BUSINESS COLLEGE TEAMS TO BATTLE

Three fast floor encounters are billed for the Y. M. C. A. court this evening. The first game will start at 8 o'clock. The program tonight looks very appealing to the basketball fans.

The New Castle Business college meets the Beaver Falls Business college team in one game. The locals are set to take the valleyites into camp.

The Gerson Jewelers meet the fast stepping Lisle T. Millers of Beaver Falls. The Gersons playing under the name of the Temple Israel defeated the Millers earlier in the year. The Millers seek revenge tonight. The Gersons are primed for battle.

The Rick Motors will play the B. & O. team of Barberton. In the main attraction, the Barberton team is expected to be good. The Rick Motors will have to play fast basketball to annex a win.

Shenango Valley Team Will Likely Win Tournament

Tourney To Take Place At Grove City On March 15 And 16

GROVE CITY, Pa., March 5.—High schools of Northwestern Pennsylvania are turning toward Grove City today, where the first game of a pair of tournaments which will determine the district basketball championship will be held. This week brings to Grove City College the 14th annual county tourney. March 15th and 16th the Northwestern Tournament is held here; when champions of four sections will fight it out here for the right to enter the Western Pennsylvania finals at Pittsburgh Tuesday, March 19th.

The Shenango Valley is favored to win the 1929 title, with Sharon, Sharpville and Farrell supporting fast clubs. Greenville and Grove City are given an outside chance, while Mercer and the Class B entries, Stoneboro and Hickory, are given little consideration. Sharon may prove a three-time winner, a feat which no team has been able to accomplish in the history of the tournaments. Sharon also won the Northwestern Tournament in 1927-28.

Sharp contests in Sections 1, 2 and 3 featured the past season, and with the exception of Parkersburg, in Section 1, the races are still undecided. Parkersburg, with 10 victories and 1 defeat, is on top of Section 1. St. Mary's is leading Section 2, but is closely followed by Ridgway and Kane.

A play-off as necessary in the northern district of Section 2, where Erie Central and Erie Academy are in a tie. Meadville, by defeating Oil City last week, is the winner in the southern district, and must play the winner of the Central-Academy play-off to enter the Grove City tourney. To date, no southern district team has ever reached tournament play. This week's play will decide the sectional winners.

WASHINGTON HIGH TO PLAY TONIGHT

Tonight on the George Washington Junior High gym the George Washington varsity basketball team will take on the Union Junior High team in a regular scheduled Junior High League game. The girls from both institutions will also meet in the first game which will commence at 4:15.

New Castle Skaters Defeat Oil City In Fast Game At Bowl

The New Castle roller polo team again demonstrated their superiority over the Oil City skaters by a 6 to 1 victory at the Jolly Bowl on Tuesday night. The New Castle team played a great brand of polo to defeat the Venango countyans. Ryan, D. Miller and Fogus led the New Castle team in victory. Fogus scored for the invaders.

The summary:

New Castle—6. Oil City—1.
D. Miller, Ryan, Fogus, McGarr, P. Miller, H. B. Sheets, A. H. Ryan, S. R. English, Irwin, G. G. G. Hicks, S. New Castle, L. Irwin, O'Donovan, Oil City, Miller, Ward, McGarr, Fogus.

Scoring, New Castle: Ryan 3, D. Miller 2, Fogus, Oil City: Pero.

Dempsey And Garden At Loggerheads, Jack To Become Promoter

By DAVIS J. WALSH.

NEW YORK, March 5.—Jack Dempsey and the Madison Square Garden Corporation, all wrapped up in each other like a couple of clasped hands for ten years, probably will be made rivals in the field of big time promotion of sports this summer.

This was declared to be virtually inevitable today as the Garden Corporation was making formal announcement, through William F. Carey, that it had decided what everybody already seemed to know—that it didn't need Dempsey except as a fighter.

According to Dempsey's friends here, it hasn't taken him long to decide that he doesn't need the Garden Corporation in either of any capacity and that, with the aid of horse racing in Michigan, he plans to make Detroit an arch-competitor of New York for the distinction of being the sport capital of America.

Dempsey Active.

Dempsey's tentative plans for the Detroit setting include:

The beating of the Garden outfit by a McLarin-Ray Miller replay and, following in this, an attempt to get Joe Dundee for McLarin in a welter-weight title fight.

A light heavyweight championship fight coupling Tommy Loughran with Demski, providing Loughran bets by Jack Walker in Chicago this month.

A bantamweight championship fight featuring Kid Chocolate, Cuban.

Dempsey is supposed to arrive in New York some time before the end of the week, at which time he probably will declare himself definitely in his plans for the immediate future. He might even give one of those interviews about fighting again but, if he does, the betting is even that it will be followed by form requisition B, entitled "I won't."

In this way, he remains right whatever happens, and at the same time he preserves a significance he might otherwise lack.

Floyd Fitzsimmons says that he and Dempsey have an option on Navin Field in Detroit and can put on title fights in all divisions, meaning that they realize the Garden outfit has the heavyweight situation in close custody. The only way Dempsey can break that monopoly is to declare himself in on the heavyweight tournament, and whatever his intentions in this connection were before Rickard died, it seems he generally admitted that John now considers himself too smart to be mixed up with anything so undignified.

Seeks Cool Million.

He told one man recently in Miami Beach that nothing less than a million dollars—\$500,000 on the line and the rest in percentage—would make him even contemplate the thing. I don't believe he could get a million dollars out of the Garden Corporation if he offered to fight Goliath with baseball bats. The only way, in fact, that he might get away with critical money like that would be to promote his own fight at Windsor, Ont., across from Detroit and to take the rap off the 25 per cent government tax that prevails here.

Carey, on the other hand, says that if Dempsey fights, the money will mean nothing; that he will fight only if he believes he can win. Personally, I think it resolves itself into a combination of both, which makes Dempsey's return highly unlikely. He is expecting too much when he declares he will interview about fighting again but, if he does, the betting is even that it will be followed by form requisition B, entitled "I won't."

Making Big Ones Out Of Little Ones

By JACK SORDS.

Sports Cartoonist-Writer for Central Press and New Castle News.

A familiar figure will be acting in an unfamiliar roll next spring when "Lefty" Leifeld, for ten years a coach to the American league, takes up his duties as pilot of the Oklahoma City team of the Western league.

Leifeld is well known for his ability to handle young players and should get a big kick out of his new job. Since 1916, when he came to the St. Louis Browns, he has acted entirely in the capacity of coach, serving also with the Boston Red Sox and the Detroit Tigers. He left the Tigers when Moriarty went out.

As a player Leifeld was a left-handed pitcher, and a good one. He started in 1907 with Joplin and by 1906 had worked his way into the big leagues as a Pirate. He pitched for Pittsburgh until 1912 when, in mid-season, he was traded to the Chicago Cubs. The Cubs sent him to the minors the following year, but he soon decided that he had enough and gave up the game until being picked up by the Browns.

Union High Wins From Plaingrove

Schick And Lanigan Star As Burnham Coached Machine Whips Plaingrove 40 To 10

Union High school basketball team in a county league game played at Plaingrove on Tuesday night, handed the Plaingrove high basketballs a 40 to 10 licking.

While Schick and Lanigan were the big guns in the offensive attack of the Burnham coached combination. The score at half time favored the Union high team in the neighborhood of 21 to 2. Plaingrove could not lathorn the defense of the Union team. The entire union team played fine basketball.

On Friday night Union hosts meets Beaver high in what is known as a "Booster Day" game. It is hoped that the newly created Union high gym floor will be packed for the contest. The game should be a lively affair.

Mahoning Wins Over First M. E.

Mahoning M. E. Takes Second Victory In Three-Tilt Bowling Play-off

The Mahoning M. E. bowlers, coached by Adam Robinson, Gibson Watson and Leonard, took the second tilt of the three bowl play-offs for the championship of the church bowling league at the Y. M. C. A. Tuesday evening.

The points now stand 2156 for Mahoning and 2886 for the First M. E. team. Tuesday evening the Mahoning men amassed 1518 points to the total of 1452 garnered by the First M. E.'s.

The present outlook is that the Mahoning team will win the league championship. It is a safe bet to say that the First M. E. bowlers will have to step beyond possibilities if they take the next three games which will be played on Thursday evening and to pull a greater total number of pins.

Tuesday evening Johnston of Mahoning led the rollers having 127, 89 and 135 in ducks to his credit at the trip.

The dope sheet for the evening's competition follows:

Ben Franklin Ends Season This Afternoon

Ben Franklin Junior High school varsity basketball team will close the 1929 basketball season by meeting the Mahoningtown team in a regular scheduled Junior High league game tonight. The girls from both institutions will also meet in a league game. The first game will get underway at 4:35 on the Franklin floor.

Ben Franklin by the way is the new "champion" of the Junior High basketball league. To date they have defeated every team in the league and have yet to taste defeat.

Track Season Is Looming Up Soon

Grove City Is Preparing For Good Season On Cinder Paths This Spring

GROVE CITY, Pa., March 5.—Featuring track athletics as a spring activity after an interval of more than a decade, Grove City College will engage in five inter-collegiate meets this year. Indoor practice has been in progress for several weeks, under the direction of Coaches McEuen and Burrows, and the squad will start outdoor work this week, according to the present plan.

An attractive schedule has been arranged, opening April 27th with Carnegie Tech at Grove City. The squad will go to Westminster May 4th, and to Beaver Falls to meet Geneva May 11th. Altogether comes to Grove City May 18th, followed by Thiel College May 25th.

Coaches McEuen and Burrows have a wealth of material this year, and Crimmon fans expect the squad to establish a brilliant record. Captain Jim Evans whose brilliant country record of seventeen victories and no defeats has won for him widespread recognition, is counted upon to win many points in the distance events. Fred Pusch is an all-around track and field man, who is entered in the weights, dashes and quarter mile. Bartlebaugh should be good for places in the dash events, and the squad includes many promising athletes. Ralph Day is one of the best pole vaulters in the district.

For many years, track, tried with baseball for attention at Grove City College. The runners then gave way to the baseball team, which held sway for nearly ten years as the only spring sport. Difficulty in scheduling games

Paul and Lloyd Wauer, brothers, members of the Pittsburgh Pirates, are still holdouts. Paul has asked \$20,000 a year and Lloyd wants \$15,000. Barney Dreyfuss has indicated the Pirates can get along without the Wauers. Fans may differ with him.

When Willie Davies ended his bout with Frisco Grande, he was requested to box Midget Wolgast. James Buchanan, his manager, asked exorbitant terms for a city the size of New Castle. It looks as though the bout will never materialize here.

Clipping three strokes from par for 69, Eddie Williams, Cleveland pro, jumped into the lead at the end of the first 18 holes of the 72-hole Fox Myer open yesterday. Deussen, Shute, Columbus, and Jack Gollins, Dayton, tied with 70.

Ben Irvin made a mistake when he changed Frisco Grande's style against Davies. Irvin was doing very good in the first portion of the Davies bout as he crowded Willie and didn't give Willie a chance to use his skill. When he sent Grande out to swing punches at long range he played into Willie's hands.

East New Castleites Winner
23-14; Mt. Jackson Girls
Victorious

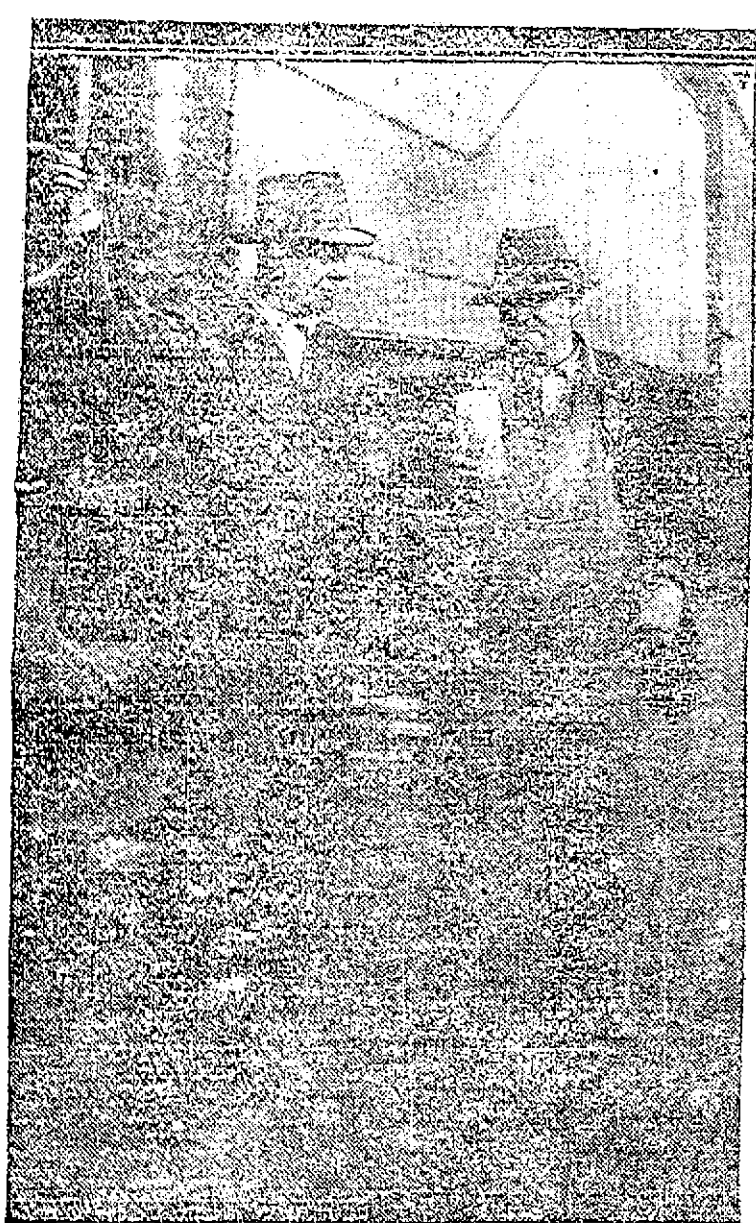

Shenango high school varsity took another step up in the class B basketball league Tuesday evening, on their home court, when they defeated Mt. Jackson 23-14. The victory was a well-deserved one, as the home team had been losing to the visitors in the previous two games.

The game was played with Jackson home at 7:30 p. m. The home team was led by their star player, Jack Quinn, who scored 12 points. The visitors were led by their star player, Matt McGrath, who scored 10 points.

The game was a close one, with the home team leading 12-10 at the half. In the second half, the home team pulled away, scoring 11 points to the visitors' 4. The final score was 23-14 in favor of the home team.

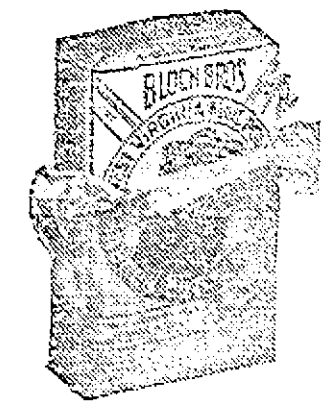

Shenango's lineup for the game was: Quinn, McGrath, Johnson, Smith, and Brown. Jackson's lineup was: Quinn, McGrath, Johnson, Smith, and Brown. The game was officiated by Mr. Johnson.

Bob Herman had the featherweight championship of the world all wrapped up and ready for delivery after 10 of 15 rounds of his title encounter with Kid Kaplan at Waterville, Conn., in August, 1927.

But Herman was not to be so easily defeated. He fought back with a vengeance, and in the 11th round, he knocked Kaplan out with a right hand. Herman was the winner by knockout.

The fight was a close one, with Herman leading 12-10 at the half. In the second half, Herman pulled away, scoring 11 points to Kaplan's 4. The final score was 23-14 in favor of Herman.

Handing Youth The Ha-Ha

This old saw about youth being served is getting a swell sock on the seer when it comes to athletics. In almost every branch of sports one will find old-timers who are consistently showing up the youngsters who are just making their way into the headlines on the sport pages. Sport history is filled with outstanding examples.

Mrs. May Sutton ("Ma") Bundy is still playing tennis after twenty-five years of campaigning on the courts. As late as last year she won the Huntington invitation at Pasadena. She has the reputation of being the first great woman player—a world's champion—and she can still serve them pretty hot over the net.

Harold Hotchkiss (Mrs. George Wigham) has been winning tennis tournaments for twenty years and is still active. Last year, paired with Helen Wills, she won the doubles championship title and it was the sixth in which she has figured, having won her first in 1905 paired with Edith Rorich.

The late Bob Fitzsimmons saw thirty years of ring service and Jack Johnson only missed Bob's mark by a period of twelve months. Stanislaus Zbyszko, the baldheaded grappler, won the world's heavyweight title after he was fifty years old. Old Stan is the oldest wrestler in the game and one of the most successful of competitive athletes today.

Hugh Drury played polo on the coast until he was past sixty. Ebbell offers his full quota of old-timers with such players as Jack Quinn, Tim Speaker, Ty Cobb and George Cleveland Alexander. Jack Quinn, of the Philadelphia Athletics, who pitched his way into fame last summer, tops the list of

Bessemer Varsity Winner 34-23;
East Brook Lassies Take
Tilt 19-17

Bessemer high school varsity outclassed, outfought and outpointed a struggling East Brook basketball team on the former's home floor Tuesday evening to a definite conclusion marked 34-23 in favor of the brick town team.

Coch Frederick of Bessemer early turned his first team into the fray and scored the first point, which proved a match for the opponents. West of East Brook led the teams with eight buckets. Nord was outstanding for Bessemer.

In the preliminary game it was amply proven that varsity basketball is not always dull, for the East Brook team won in a classy, zealous battle by a 19-17 score. Stanish and Radan were outstanding for Bessemer, while Simson and Scelcia performed best for the losers.

The line-ups:

Senior High School faculty teachers defeated the George Washington Junior High school teachers 18-12 in a game played on the Senior High floor Tuesday before a large crowd of student spectators.

The High school teachers started scoring at the very beginning and at the half were on top by a 12-5 margin. The game soon developed and was a sight to see the many falls and efforts of the school teachers. The win for the high school faculty put the standing even. The Washington team on the last meeting trimmed the Senior High men.

The playing of Bridenbaugh, Cassillo, and Klee featured for the winners, while Gillespie and Ward were the best for the losers.

TRAINING CAMP 'BUNTS'

Baseball Teams In 'Big
Show' Prepare For
Season

WINTER HAVEN, Fla., March 6.—President John A. Heydler was due to look the Phils over today. He will be here several days. Rain hampered practice yesterday but Bert Shotton hoped to send his 27 men in camp through a long drill today to make up for the lost session. All the remaining members of the team are expected in camp by Saturday.

FT. MEYERS, Fla., March 6.—Two hours of work this forenoon will comprise the day for the Athletics in camp for Connie Mack and his golf fans will attend the annual 72-hole open golf tournament here this afternoon. Rain forced cancellation of the game yesterday between the two squads but the real training session games start Thursday when the Cardinals are met at Avon Park.

SAN ANTONIO, Tex., March 6.—The New York Giants play their first exhibition game of the season today, taking on the Texas University nine at Austin. The regulars handed the scrubs a 10 to 0 drubbing yesterday.

NEW ORLEANS, March 6.—With big Jove Miljus reporting, all of the Cleveland battery men were in camp for spring training today. The training squad now numbers 22.

ST. PETERSBURG, Fla., March 6.—Every member of the New York Yankees is in camp today with the

arrival of pitchers Hoyt and Zachary and outfielder Bob Meusel. Lou Gehrig's nine beat Babe Ruth's team, 3 to 2, in the first practice game of the season yesterday.

CLEARWATER, Fla., March 6.—Glenn Wright, the shortstop obtained from Pittsburgh, has been elected captain of the Brooklyn Robins. He will receive a bonus of \$500. The regulars handed the Yarnigans a 15 to 1 beating in yesterday's practice game.

PASO ROBLES, Cal., March 6.—An appendicitis operation on Jimmy Stroner last January appeared today to be upsetting Manager Donie Bush's plans for the Friars' infield, and to be the cause of Stroner not qualifying for third base. He has been unable to "go it" because of his weakened condition. He has not been eliminated, however. Pie Traynor will undoubtedly start the season at the hot corner instead of short and Dick Bartell be seen in Glenn Wright's position in the short field job.

Colorado Man Claims Hay Moving Record

WILEY, Colo., March 6.—August Schneider recently pulled up to the Alfalfa Mills with what he claimed to be the world's largest load of hay ever successfully delivered to market.
The haystack on wheels weighed 23 tons 500 pounds, was 33 feet long, 32 feet wide and 16 feet high. It netted the grower \$278.65 at \$12 per ton.

Roaming Round With Richards

"Delayed in Transit"
Somewhere in Maryland.

The big show is over, and the language of Florenz Zeigfeld it was a show. The world's greatest with the Master Showman, Herbert Hoover as the Ringmaster. As this is being written several hundred Pennsylvania men, most of whom are members of the Pennsylvania General Assembly who are on board this train are wondering if they will get to Harrisburg before five o'clock in the morning.

The odds are against it for no such traffic snarl in the history of Washington was ever seen. Every train it seemed was hours late getting away and the huge train sheds of the Union Station there looked like a football field after the game with thousands of fans milling around.

The football picture was further carried out in the cheering, the hands, the buzz of conversation and the hoarse voices. Marines and sailors, soldiers and Boy Scouts, National Guardsmen from a dozen states, silk hats and iron masks, frock coats and rain coats, in short Mr. and Mrs. United States were there, bedraggled and wet after the all day drizzle but happy in that they had seen the Quadrant Show, staged in an elaborate manner, with the spectators numbering half a million.

Washingtonians term it the biggest ever. Hotels fairly groaned under the load of humanity that tried to use them, hundreds of special trains poured their human cargo into the city and thousands of automobiles were parked on the outskirts.

The parade was a spectacle of color that will live long in the memory of those who saw it. Overhead blimps and planes wheeled and roared and darted. Down a rain-spattered gaily decorated highway, Pennsylvania avenue, the pride of thirty states trod their way, soaked it is true but with bands blaring and colors flying as though to scoff at the Rain King who tried to spoil the carnival.

From Texas and Iowa, from California and Wisconsin, from Connecticut and the Carolinas they came, in uniforms that were copied from the Colonials, from the Imperial Prussian Guard, from the Senegalese and the Foreign Legion. Crack units of the American service, infantry, cavalry and artillery, sailors, marines and coast guards, National Guard veterans of three four wars, statesmen and near statesmen, boys and girls and all of them marching past their new president with a very apparent spirit of pride.

And may I say that the snappiest civilian unit in line, bar none was the Lincoln Marching Club of New Brighton. Silk hatted and frock coated, spatted and carnationed, wearing red white and blue umbrellas they got a big hand all along the line. When they passed the Pennsylvania delegation, located just across the street from the White House in Lafayette Square, the Keystone men and women nearly tore the roof off the grand stand.

Also score one for the American Legion Bugle and Drum Corps of Sharon. These lads were the only outfit in line that had on rain coats and rain hats.

There were undoubtedly many New Castle people in Washington but trying to find them was like trying to find a lost golf ball out at the Field Club. Saw Mr. and Mrs. Fred Rente, at the Carlton Hotel. Saw James P. Teller in the New Willard and John Dinsmore and his family on the street. Saw Charles E. Allen in line with the Sharon Bugle and Drum Corps.

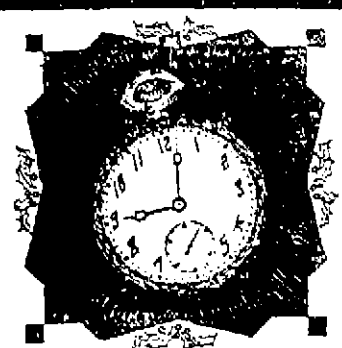

Along with the rest of the Pennsylvania legislature, had the pleasure of eating supper in the home of Secretary of Labor James J. Davis. The secretary has a new home out on Massachusetts avenue and at first sight it looks like a new high school or a post office building. It is just a new place, built by Senator Cousens of Michigan but recently purchased by Mr. Davis. And what a place inside.

Silk hats took a terrible drubbing in the parade. After being rained upon for several hours even the most self-respecting silk hat gets rather a moth-eaten appearance and many a lodge official will have to get a new silk kelly before the next meeting.

Anything short of a governor of a state rated little in Washington Monday. There were so many generals, ex-secretaries, diplomats, state officials and office holders that it did seem as though every official east of the Mississippi must have been there.

This stuff may get in Tuesday's paper and again it may not. If the mail service is as tied up as was the traffic snarl in Washington, it will do good to get back by Friday.
